Nature of Complaint:

Consumer is opposed to the added restriction on the moratorium. She has property (1.5 acres) located in the Pine Water Co. service area and has had it for 6 years. She states that when she tried to get a meter connection she was told she had to have a building and everything ready to connect. She cannot get a building permit without a water meter being hooked up and she cannot get a water meter without a building being on the property. Her property is losing value. Yet developers come in and they have no problem getting meters and services.
