DOCKETED

OCT 24 2001

Dear Ms. Johnson:

DOCKETED BY *nae*

In Arizona Corporation Commission (Commission) Decision No. 63960, dated September 4, 2001, Johnson Utilities Company's (Johnson) Certificate extension was conditioned on it correcting any major or minor violations contained within an Arizona Department of Environmental Quality (ADEQ) "Notice of Violation" (NOV) within 90 days from the date of the Notice of Violation to cure the defect or request an extension from the Commission in order to remedy the violation. Failure to do so will result in the Certificate authorized in Decision No. 63960 becoming null and void without further order of the Commission.

On October 16, 2001, I received a copy of an ADEQ NOV (enclosed) listing several violations against Johnson for its Sun Valley Farms Unit V system. Please provide me with documentation showing that Johnson has corrected the deficiencies noted in the October 16, 2001, NOV by January 14, 2002.

If you have any questions, I may be contacted at 602-542-0818.

Sincerely,

Patrick C. Williams
Manager, Compliance and Enforcement
Utilities Division
