Re: Docket #W-02113A-04-0616

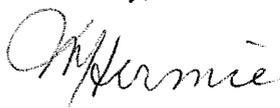

To Whom It May Concern:

DOCKETED BY 

I am writing to express concern regarding the proposed increase in water rates from Chaparral City Water in Fountain Hills. Currently, the school district pays approximately \$31,609 for domestic water and \$40,436 for irrigation per year. If rates increase 13.89% for domestic water and 64.71% for irrigation our district will be paying an additional \$26,161.00 per year. As an administrator, I do realize that operating costs are on the rise; but, I do question the enormity of the increase. This increase will negatively impact the maintenance and operations budget of the district and affect the day-to-day operations of teaching children.

Any consideration that you could give to a more manageable increase will be greatly appreciated.

Sincerely,

Marian K. Hermie, Ed.D.
Superintendent
