**RE:** Distributed Generation Workshop - Request for Service List and Meeting Notice  
Docket No. E-00000A-99-0431

Commission Decision No. 67744 directed Staff to schedule workshops to consider outstanding issues concerning distributed generation (DG). All parties who want to be included on the service list for this workshop should send a notice to the Commission's Docket Control Center at 1200 W. Washington, Phoenix, AZ 85007. This notice should indicate interest in workshop participation, reference Docket No. E-00000A-99-0431, and include both a mailing address and an e-mail address. Staff appreciates the input and participation from all interested parties through the workshop process.

Through these workshops, Staff plans to address the issues of DG interconnection, rate design, the establishment of a program to encourage the installation of self generation equipment, and net metering. The first workshop will be held on **Friday, July 8, 2005, from 9:30 a.m. to 4:00 p.m. in the Commission's Hearing Room at 1200 W. Washington Street, Phoenix, AZ 85007.** The topic of the first workshop will be DG interconnection standards using Texas standards as a strawman. Please see the attached workshop agenda.

Staff would like to provide the participants links to the following resources related to DG interconnection that may be useful.
