AZ Corporation Commission  
Director Of Utilities

To Whom it May Concern:

Several Days ago, we recieved a letter from Brooke Utilities, Inc. in Bakersfield, California. It stated that Circle City Water Co. has filed an application with you for the approval of a hook-up fee for new customers and for an extension of it's CC&N to provide water service to Circle City property owners. I understand there is to be a hearing on these matters on July 25, 2005.

Although the meeting will be open to the public, I will not be able to attend. We do approve of both of these matters. However, I would like to comment on the quality of service we have recieved from the company. We have been without water several times in the past, twice within the past 2 weeks, without any warning. I know that things go wrong unexpectedly, but feel that there should be some sort of back-up for this service. I know Circle City Water Co. has been asked to provide a back-up before to no avail as yet.

With the expanded building that is now going on in Circle City, we are concerned about fires, and the fact that we have no fire hydrants. A house fire or a brush fire could be disasterous.

Thank you for considering these comments,

*Clinton Briggs*
