RE: Docket No. W-03067A-04-0216 Beaver Dam Water Company
Docket No. WS-04247A-04-0604 Sunrise Utilities, LLC

On July 14, 2005 Administrative Law Judge Marc Stern filed a Procedural Order in this consolidated docket. In the Procedural Order Staff was ordered to "review the late-filed exhibit by Sunrise Utilities, LLC ("Sunrise"), and shall file verification that the requests for water and wastewater of Sunrise correlate with the recently filed legal descriptions and fall within the areas sought to be certificated herein." Staff was ordered to file its verification not later than July 29, 2005.

Since the Procedural Order, Staff met with the attorney of Sunrise Utilities who sent to Staff the attached letter and legal descriptions of the property from which Sunrise has received requests for service and for which Sunrise is willing to provide service. These descriptions differ from Exhibit A-5 which was placed into evidence at the hearing. Sunrise still is requesting areas for which it has not received requests for service which are included in Exhibit A-5. Also attached are Staff's maps which illustrate and verify the areas Sunrise requested for the extension overlaid by the requests for service which fall within the requested extension area.

Re: Sunrise Utilities, LLC; Docket Nos. WS-04247A-04-0904 and W-03067A-04-0216;
Legal Description

Dear Linda:

I enjoyed meeting with you and Barb Wells on Friday regarding clarification of the subject Company's requested Certificate of Convenience and Necessity.

The Company would obviously like to have the Commission grant the Certificates for the water and wastewater areas described on Exhibit A-5 in this proceeding.

On July 8, 2005 our correspondence to Judge Stern provided the legal descriptions associated with the eight Request for Service letters attached to the Application at Tab D. The schedule attached to that letter had an incorrect title, and was not intended to revise the CC&N application area. I apologize for any confusion that may have caused. Those Requests for Service were obtained from the Developers well prior to the filing of the Application, and included some areas that were ultimately not included in the requested CC&N area.

To clarify those matters, I have attached a revised schedule showing the properties that meet both of the two criteria we discussed: first, the Company has received a Request for Service from the customer, and second, those areas are within the amended area being requested as set forth in Exhibit A-5 in this proceeding.

Ms. Linda Jaress

Page 2

I hope this clarifies the relationship of the CC&N application area and the Requests for Service. In the event you have any questions regarding this matter, please do not hesitate to call.

Sincerely,

Richard L. Sallquist
