Nature of Complaint:

ATTACHED FOLLOWING CORRESPONDENCE FROM A CUSTOMER WHO WRITES:

1. If a utility has to comply with a government order, that utility should spread the cost over all their customers not just in the area that has to be upgraded i.e., Sun City West.
2. The cost of \$8 per month seems high. Did the utility expect to recover the cost in a short period of time? The cost of this equipment should last 20 years, so the cost should be spread over that amount of time. This would undoubtedly substantially reduce the \$8 cost to something more reasonable.
