RE: COMPLIANCE TO DECISION NO. 63546 - REQUEST FOR
EXTENSION OF TIME. (DOCKET NOS. T-03258A-00-0236, T-03258A-
97-0568, T-03258A-97-0545, AND T-03258A-96-0492)

On April 15, 2003, Verizon Select Services, Inc. ("VSSI" or "the Company") submitted correspondence requesting an extension of time to comply with one condition in the decision granting VSSI authority to provide facilities-based and resold local exchange and interexchange telecommunications services (April 4, 2001; Decision No. 63546). Verizon's CC&N was conditioned on the Company filing fair value rate base information within 18 months of the date VSSI first provides service following certification. Since VSSI was providing resold interexchange service before certification, VSSI was required to meet this condition within 18 months of the date of the decision. On October 8, 2002, VSSI was sent a notice of non-compliance with this condition and was requested to respond in 30 days if it did not want its certificate to be revoked. VSSI did not meet this deadline. Over six months after receiving the notice of non-compliance VSSI filed its request for an extension to comply with the decision until April 15, 2003, the date of its filing. Attachment A of the filing requesting an extension included the fair value rate base information.

Since VSSI's request for an extension was not filed in a timely manner, Staff recommends that VSSI's request for an extension of time be denied. VSSI's certification, for all services, is void. Since Verizon was determined to have sufficient financial capability, it was not ordered to acquire a bond. VSSI should immediately desist from providing telecommunications service in Arizona until it files a new application to provide service and that application is approved. Staff recommends that Verizon notify all of its customers of its discontinuance of service and provide a list to its customers of alternative providers of resold interexchange service.

1 In Decision No. 63546 (April 4, 2004), Verizon Select Services, Inc., ("VSSI") ✓
2 received a certificate of convenience and necessity (the "CC&N") to provide competitive
3 facilities-based and resold intrastate telecommunications services and AOS services in
4 Arizona. The CC&N was condition upon, among other things, the requirement that VSSI
5 file certain fair value rate base ("FVRB") information within 18 months of the date VSSI
6 first provides service following certification as set forth in Finding of Fact 18(b) of
7 Decision No. 63546. VSSI inadvertently failed to file the required FVRB information,
8 and in a letter from the Commission's manager of compliance and enforcement, was
9 informed that its CC&N was void. VSSI is currently providing telecommunications
10 service to customers in Arizona.

11 Attached hereto as Exhibit "A" is the FVRB information required of VSSI in
12 Decision 63546. VSSI hereby requests a retroactive extension of the 18-month
13 compliance deadline in Decision 63546 through and including April 15, 2003, the date of
14 this filing. VSSI also requests that the Commission confirm that VSSI's CC&N remains
15 in effect.

16 Contemporaneous with this filing, VSSI is also submitting its annual utility report
17 for 2002.

18 RESPECTFULLY SUBMITTED this 15th day of April, 2003.
