7/9/2005

To the Honorable Jeff Hatch-Miller, Chairman
Arizona Corporation Commission
1200 W. Washington St.
Phoenix, A.Z. 85007

Mr. Chairman, I'm writing to you in regards to case#126 dealing with the SRP power line project. I'm a home owner of 20 years on Teel Rd. along with some of my neighbors who have lived on this street for nearly 30 years. The reason for this letter is that ,we all will be greatly affected in a negative manner if SRP constructs there 500 kva lines on there so- called prefered route. If the power lines are to go as to the prefered route this will put them literally over my family and neighbors heads, which none of us believe to be good for our health. And I believe the electric field caused by these lines will cause [CANCER]....

Please consider the SOVA route instead of the SRP preferred route . This route makes more sense do to the fact that these 500kva lines would continue south 2 to 3miles more in a 1 mile wide power corridor which exists already and Tucson electric is using. Also by SOVA,s route when the power lines turn to the east , this would be routed on a existing 1970,s APS approved power corridor. There are at least 250 to 300 SOVA members who are in favor of this route.

Thank you,for your time

Dave Potillo
