D. Nature of Services to be Provided:

1. In accordance with Ariz. Rev. Ann. Section 40-101 et seq. (1991) and Ariz. Comp. Admin. R. & Regs. R14-2-503 (1991), dPi-TELECONNECT, L.L.C., (hereinafter "Applicant" or "dPi"), hereby files an application for a certificate of convenience and necessity from the Arizona Corporation Commission (hereinafter "Commission") to provide intrastate, local and interLATA and intraLATA telecommunications services within Arizona.

2. Applicant's service provides for the resale of basic local exchange service of the facilities-based carriers, such as U.S. West, to businesses and residential customers services.

3. Applicant's service will be available 24 hours a day, seven days a week.

4. Applicant submits the following reasons in support of its belief that the Commission should grant its application:

- (a) Applicant's proposed resale of local and long-distance telephone service will meet the needs of subscribers who wish to obtain alternative telecommunications services.
- (b) Applicant's proposed service will help to optimize the use of existing telecommunications facilities and contribute to their efficient use and operation.
- (c) The Commission's granting of the instant application is consistent with the Commission's Order in Decision No. 57339, Docket No. U-2507-88-045, et al. (April 5, 1991), in which the Commission recognized that competition within the intrastate, inter LATA telecommunications market provides long-term benefits to Arizona consumers, among which benefits are the following:

(i) lower-priced and better quality services; (ii) innovative packaging of telecommunications resources as well as increased diversification and reliability of supply of telecommunications services; and (iii) development of an expanded telecommunications supply industry in Arizona with attendant employment opportunities for Arizona residents.

5. The Commission's order granting authority to Applicant may require the filing and updating of limited tariffs setting forth certain of Applicant's telecommunications services and rates. Such rates, which, because the marketplace will dictate price, need not be supported by cost data and should become automatically effective after a reasonable waiting period determined by the Commission. In addition, Applicant will be subject to the Commission's present complaint procedures. However, the Commission may wish to apply modified complaint procedures to resolve customer disputes with Applicant as a competitive provider of long-distance services.

6. Applicant requests that the Commission grant it authority to provide resold local and intrastate long-distance services in Arizona subject to the above-referenced conditions. Such a regulatory scheme will protect Arizona consumers and promote competition and consequent efficiency in the provision of local exchange and intrastate, interLATA and intraLATA telecommunications services in Arizona subject to the above-referenced conditions. Such a regulatory scheme will protect Arizona consumers and promote competition and consequent efficiency in the provision of telecommunications services.

7. Applicant request that its application be granted on an ex parte basis. Applicant is prepared to offer its telecommunications services immediately upon Commission authorization and to begin providing the benefits of its service offerings to Arizona consumers.

The following symbols shall be used in this tariff for the purpose indicated below:

- C - To signify changed regulation.
- D - To signify discontinued rate or regulation.
- I - To signify increased rate.
- M - To signify a move in location of text.
- N - To signify new rate or regulation.

TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper-right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between Sheet 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper-right corner of the sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the third revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Tariff approval process, the most current sheet number on file with the Commission is not always the Tariff page in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
