Dear Sir

I am a customer of APS and would like to make my comments on so called increase hike which is outrageous from my point of view, APS seem to think that the public has a money tree in their back yard, I am a senior citizen on a fixed income and have a low income account and living here in a retirement such as Sun City, I'm sure there are plenty of other seniors on a fix income and can barely make ends meet and for you to increase by twenty percent is not very practical, and yours truly will be asking everyone who is concerned to either call or write to your office personally, (APS)main office,your just like the big Oil companies who will do anything to make a few bucks, or should I say millions, and if you had just increase by a few percent, it might have been more acceptable, but not the twenty per cent, so please go back to the drawing board and rethink your figures. I would like for you to be in our shoes financially wise, and then see if you could handle the twenty per cent increase, I also hope the AZ Commission will be checking into this matter very seriously before allowing them (APS) to do anything with the propose hike raise.
