I'm writing this letter to you to protest the proposed APS 20% rate hike. This percentage of increase sounds extreme to me. I am on Social Security Disability and what I live on is way below what is considered poverty I could understand a small percentage rate increase over time, but 20 percent all at one time? That is just so unreasonable to people like me who are having a difficult time just getting by because our income is small and fixed. Even if I had a higher income I would feel the rate was too steep. I feel I am being gouged from every which way by business people who are greedy. So much for the golden years!
