Ladies and Gentlemen,

I am sending this letter to voice my disagreement with the proposed rate hike for Arizona Public Service.

I feel that the amount of the increase is excessive. I do not know all of the specifics of course, and I realize that gas prices have risen, and I do not know how much electricity that they have had to buy, but the percentage seems excessive.

I am concerned that many business managers today use aggressive tactics to increase company profits. This seems to be true in different industries and even government.

I was also concerned by the recent shutdown of one of the units at Palo Verde due to a scenario that was part of a safety training exercise. I don't know all the dates, I just hope that you know the one I am referring to. I do not agree with that management decision.

Thank you for reading this letter,

Kevin Bright
