AZ CORP COMMISSION
DOCUMENT CONTROL

DATE: July 9, 2001

RE: IN THE MATTER OF THE APPLICATION OF QWEST CORPORATION F/K/A/
U S WEST COMMUNICATIONS, INC., FOR APPROVAL OF AN UNBUNDLED
NETWORK ELEMENT COMBINATION AMENDMENT TO THE
INTERCONNECTION AND SERVICE RESALE AGREEMENT ADELPHIA
BUSINESS SOLUTIONS OPERATIONS, INC. (DOCKET NOS. T-01051B-01-0467
AND T-03837A-01-0467)

On June 8, 2001, Qwest Corporation ("Qwest"), f/k/a U S West Communications, Inc., filed an application for approval of an Amendment to the Interconnection Agreement between Qwest and Adelphia Business Solutions Operations, Inc. ("Adelphia"). The original Interconnection Agreement was approved by the Commission on October 10, 2000, in Decision No. 62946.

The Telecommunications Act of 1996 ("1996 Act") directed incumbent local exchange carriers to make their networks available for interconnection and resale by new entrants to the local exchange market. The 1996 Act provides for interconnection and resale agreements to be concluded by voluntary negotiation. This Amendment to the Interconnection Agreement between Qwest and Adelphia was voluntarily negotiated, without resort to arbitration.

Under the terms of this Amendment, terms, conditions, and rates are added for Unbundled Network Element Combinations. Unbundled Network Elements are network elements which are defined by the Federal Communications Commission and that Quest must make available to Adelphia for a fee.

According to the 1996 Act, the Commission must approve voluntarily negotiated interconnection and resale agreements, if their provisions are non-discriminatory and in the public interest. Staff has reviewed the Amendment and finds it to be non-discriminatory and in the public interest. Qwest is offering the same terms and conditions of the Agreement to all other interested parties. The Agreement is in the public interest because it will act to further competition in the local exchange market in Arizona.

DECISION NO. _____

ORDER

11 Open Meeting
July 24 and 25, 2001
12 Phoenix, Arizona

13 BY THE COMMISSION:

14 FINDINGS OF FACT

15 1. On June 8, 2001, Qwest Corporation ("Qwest"), f/k/a U S West Communications,
16 Inc., filed an application for approval of an Amendment to the Interconnection Agreement between
17 Qwest and Adelphia Business Solutions Operations, Inc. ("Adelphia"). The original
18 Interconnection Agreement was approved by the Commission on October 10, 2000, in Decision
19 No. 62946.

20 2. The Telecommunications Act of 1996 ("1996 Act") directed incumbent local
21 exchange carriers to make their networks available for interconnection and resale by new entrants
22 to the local exchange market. The 1996 Act provides for interconnection and resale agreements to
23 be concluded by voluntary negotiation.

24 3. This Amendment to the Interconnection Agreement between Qwest and Adelphia
25 was voluntarily negotiated, without resort to arbitration.

26 4. Under the terms of this Amendment, terms, conditions and rates are added for
27 Unbundled Network Element Combinations. Unbundled Network Elements are network elements,
28 ...

1 which are defined by the Federal Communications Commission and that Quest must make
2 available to Adelphia for a fee.

3 5. According to the 1996 Act, the Commission must approve voluntarily negotiated
4 interconnection and resale agreements, if their provisions are non-discriminatory and in the public
5 interest.

6 6. Staff has reviewed the Amendment and finds it to be non-discriminatory and in the
7 public interest. Qwest is offering the same terms and conditions of the Agreement to all other
8 interested parties. The Agreement is in the public interest because it will act to further competition
9 in the local exchange market in Arizona.

10 7. Since there are no grounds for rejection of the Amendment pursuant to Section
11 252(e)(2)(A) of the 1996 Act, Staff has recommended that the Commission approve the
12 Amendment to the Interconnection Agreement between Qwest and Adelphia.

13 CONCLUSIONS OF LAW

14 1. Qwest is an Arizona public service corporation within the meaning of Article XV,
15 Section 2, of the Arizona Constitution.

16 2. The Commission has jurisdiction over Adelphia and over the subject matter of the
17 Application.

18 3. The Commission, having reviewed the Application and Staff's Memorandum has
19 determined that the Amendment to the Interconnection Agreement negotiated between Qwest and
20 Adelphia meets the requirements of Section 252(e)(2)(A) of the 1996 Act which governs the
21 approval of voluntarily-negotiated agreements and is in the public interest.

22 4. The Commission maintains jurisdiction over the subject matter of the Agreement
23 and Amendments, thereof, to the extent permitted pursuant to the powers granted the Commission
24 by the Arizona Constitution, Statutes, Commission Rule, and the 1996 Act and the Rules
25 promulgated thereunder.

ORDER

IT IS THEREFORE ORDERED that the Commission hereby approves the Amendment to the Interconnection Agreement between Qwest and Adelphia filed June 8, 2001.

IT IS FURTHER ORDERED that this Decision shall become effective immediately.

BY ORDER OF THE ARIZONA CORPORATION COMMISSION

CHAIRMAN

COMMISSIONER

COMMISSIONER

IN WITNESS WHEREOF, I, BRIAN C. McNEIL, Executive Secretary of the Arizona Corporation Commission, have hereunto, set my hand and caused the official seal of this Commission to be affixed at the Capitol, in the City of Phoenix, this ____ day of _____, 2001.

RE: Revisions to Adelphia Business Solutions Operations, Inc. AZ C.C. Tariff No. 1

Dear Sir or Madam:

On behalf of Adelphia Business Solutions Operations, Inc., ("Adelphia"), enclosed for filing are an original and ten (10) copies of Adelphia's AZ C.C. Tariff No. 1. This revision provides for the following:

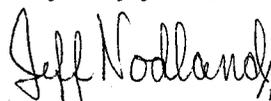

- Language removed from Section 1.1, referencing On-Net Services is deleted as this tariff provides pricing for both On-Net and resale customers.
- Pay Telephone Language and rates grandfathered (See Section 4)
- Additional products and enhanced descriptions for Optional Calling Features (formerly Custom Calling Features) (See Section 5.1)
- Adelphia Centrex-Type Service added as a new product offering. Previous Centrex offering is now called Legacy Centrex-Type Service.(See Sections 5.3.3 and 5.3.4)
- Additions made to Promotional Language (See Section 5.4)
- References to Mail Track as Adelphia's Voice Messaging Product have been deleted in the Voice Messaging (See Section 5.9)
- Integrated Access Service added (See Section 5.16)
- Additional products for PBX Trunks (See Section 7.2.3)
- Digital Centrex language added (See Section 7.2.4d)
- Call Plans have been reformatted in order to be more clearly understood and to eliminate redundant information (See Section 11)
- Updated Rates for End User Communications (See Sections 12 and 13)

Please see Addendum A to this filing for a list of specific pages revised.

Section 1 - APPLICATION OF TARIFF

1.1 Application of Tariff

This Tariff sets forth the service offerings, rates, terms and conditions applicable to switched services provided by Adelphia Business Solutions Operations, Inc., as follows:

The furnishing of local exchange intrastate end-user communications services to customers within the State of Arizona.

1.1.1 Service Territory

Adelphia Business Solutions Operations, Inc. will provide service within the State of Arizona.

1.1.2 Availability

Service is available where facilities permit.

Only those services for which rates are provided are currently available.

[X]

PAY TELEPHONE SERVICE

[X]

- [X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

121 Champion Way
Canonsburg, Pennsylvania 15317

Section 4 - PAY TELEPHONE SERVICE

4.1 GENERAL

4.1.1 Pay Telephone Line exchange service is one-party exchange service for use by pay telephone providers, location owners and interexchange carriers and is furnished solely for connection with coin, coinless, or combination coin/coinless pay telephone equipment to the Telephone Company's network.

4.1.2 Pay Telephone Line Service:

- a. Is available in all exchanges of the Company; foreign exchange service is not available to these lines.
- b. Provides for one listing in the white pages and one listing in the yellow pages of the Telephone Company directory for each Pay Telephone Line furnished. However, Non-published Number Service or Non-Listed Number Service at no charge are also available to Pay Telephone Line customers.
- c. Only one coin-operated or coinless public access telephone unit may be connected to each Pay Telephone Line.
- d. Will be provided on a dial-tone-first basis to enable end users to dial certain calls without requiring coin deposits, i.e., all emergency calls, telecommunications relay service calls, and non-sent paid calls.
- e. Service will be provided on a two-way basis, except lines for which a specific exemption has been granted by the Arizona Corporation Commission.
- f. The pay telephone provider is responsible for meeting all federal, state and local statutes with respect to provision of pay telephones in accordance with all hearing impaired and handicapped person requirements.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

Section 4 - PAY TELEPHONE SERVICE (Cont'd)

4.1 GENERAL (Cont'd)

4.1.2 Pay Telephone Line Service: (Cont'd)

- g. Temporary suspension of service (vacation service) is not available for Pay Telephone Line Service.
- h. Pay telephones connected to a Pay Telephone Line must be registered in compliance with Part 68 of the FCC's Rules and Regulations.
- i. Each pay telephone connected to a Pay Telephone Line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the pay telephone must permit access to the operator.
- j. Failure of the subscriber to comply with the provisions of this Tariff may result in the suspension or disconnection of the subscriber's service.

[X]

[X]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

Canonsburg, Pennsylvania 15317

Section 4 - PAY TELEPHONE SERVICE (Cont'd)**4.2 REGULATIONS**

- 4.2.1 Pay Telephone Line Service is provided at the corresponding exchange's one-party business line rate as contained in the Telephone Company's corresponding Tariff on file with the Commission.
- 4.2.2 Where measured service is available in a given exchange, the business measured service rates apply to Pay Telephone Line Service.
- 4.2.3 Line Connection charges listed in Section 12 of this Tariff apply to Pay Telephone Line Service.
- 4.2.4 The business touch tone rate listed in Section 12 of this Tariff applies to Pay Telephone Line Service, if requested by the customer.
- 4.2.5 Directory assistance charges of \$0.50 per call apply to Pay Telephone Access Lines.
- 4.2.6 Pay Telephone Line Service customers will not be charged for non-published or non-listed telephone numbers. However, a non-recurring charge applies for each change of telephone number required to establish a non-published or non-listed number.
- 4.2.7 All subscribers to Pay Telephone Service shall have the right to select their presubscribed intraLATA toll provider at such time that intraLATA presubscription is available in the Company's service territory.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

Canonsburg, Pennsylvania 15317

Section 4 - PAY TELEPHONE SERVICE (Cont'd)**4.3 AVAILABLE FEATURES FOR PAY TELEPHONE SERVICE****[X]**

4.3.1 Optional call screening/blocking/coin supervision functions, as listed below, are provided at the monthly rates stated. The non-recurring charges shown below do not apply to initial installations, but do apply to subsequent requests made by the customer.

- a. Inbound Call Operator Screening – Automatically screens and blocks incoming third-number billed or collect calls or both, so that callers cannot charge these calls to the customer's line.
- b. Outbound Call Operator Screening – Helps prevent unauthorized charges on outgoing calls, just as Inbound Call Operator Screening does for incoming calls.
- c. 900/976 Block – Prevents call to fee for information services.
- d. International Call Block – Restricts direct-dialed 011+ and 101XXXX+011+International calls but allows operator assisted International calls, which are dialed using 01+ and 101XXXX+01.
- e. Answer Supervision – Billing immediately begins when the called party answers the phone, thus assuring the price of calls will be accurate.
- f. 1+ Block – Restricts direct-dialed 1+ domestic or 011+ International call, but allows local calls, toll-free calls and alternate billed long distance calls.
- g. Block on Caller ID – Blocks outbound caller identifier digits.
- h. Block on Phone Smart Features – Prevents the automatic connection of directory assistance calls that will be charged to customer line.

[X]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

Section 4 - PAY TELEPHONE SERVICE (Cont'd)

4.3 AVAILABLE FEATURES FOR PAY TELEPHONE SERVICE (Cont'd)

[X]

4.3.1 (Cont'd)

- i. PIC Freeze – Eliminates the possibility of unauthorized changes to the payphone provider's primary intra/interlata carrier (PIC). No intra/interlata carrier can manually or electronically change a restricted PIC. This feature is automatically included.
- j. NXX Blocking – Certain NXX's may be blocked at the customer's request.

[X]

[X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES**5.1 OPTIONAL CALLING SERVICE**

[T]

5.1.1 General

The features in this section are made available monthly, by subscription, on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service.

[D]

5.1.2 Description of Features**a. 3-Way Calling**

[T]

3-Way Calling allows a customer to add a third party to an existing call and form a three-way call.

[D]

b. 6-Way Calling allows a subscriber to call up to five other numbers to create a 6-way conference call.

[N]

c. Call Forwarding

Call Forwarding features, when activated, redirect attempted terminating calls to another customer-specified line.

[D]

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding feature is billed for the forwarded leg of the call.

[T]

Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd) [T]

5.1.2 Description of Features (Cont'd)

c. Call Forwarding (Cont'd) [T]

Call Forwarding Busy automatically reroutes an incoming call to a customer predesignated number when the called number is busy. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Don't Answer automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within a fixed period. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Variable allows the customer to choose to reroute incoming calls to another specified telephone number. The customer activates and deactivates this feature, and selects the forward-to number for each activation. [T]

Remote Access to Call Forwarding Variable allows the subscriber to activate and deactivate Call Forwarding Variable from a telephone other than the one to which Call Forwarding Variable is assigned. A pre-assigned PIN provides the subscriber with security for activating and de-activating the feature. [N]

Call Forwarding Fixed automatically re-routes an incoming call to a pre-designated number when Call Forwarding is activated by the user. [N]

d. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd)

[T]

5.1.2 Description of Features (Cont'd)

e. Call Waiting Originating

[N]

Call Waiting Originating allows the subscriber to apply call waiting treatment to a busy called line for the duration of the call attempt. Use is restricted to the subscriber's inter-terminal group.

[N]

f. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring.

[D]

g. Multiline Hunting

[D] [N]

Hunt Group

Hunting is used to search for an idle line within a pre-defined multi-line hunt group. Each line in the multi-line hunt group is assigned a member number used for hunting.

[D] [N]

Regular (sequential) Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, a busy signal is returned.

[N]

Circular Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, hunting continues from lowest member number up to the member before the dialed number. If no idle line is found, a busy signal is returned.

Uniform Call Distribution Hunting searches for an idle line beginning with the member with the fewest number of completed calls and continuing with the member with the next higher number of completed calls. When two or more members have the same number of completed calls, the hunt is conducted from the lowest to the highest member number. If no idle line is found by the end of the hunting sequence, a busy signal is returned.

5.1 OPTIONAL CALLING SERVICE (Cont'd)

[T]

5.1.3 Rates and Charges

a. Monthly Rates

Rates for this service are located in Section 12.

b. Connection Charges (Nonrecurring Charges)

Connection charges may apply when a customer requests connection to one or more custom calling features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 12 of this tariff.

c. Trial Period

The Company may elect to offer a free or reduced rate trial of any new custom calling feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials, below.

Issued: June 26, 2001

Effective: July 26, 2001

By: John B. Glicksman, Esquire, Vice President and General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

m. Callback Features Package

The Callback Features Package includes: Automatic Callback, Automatic Recall, and Call Trace.

n. Selective Call Features Package

The Selective Call Features Package includes: Selective Call Acceptance, Selective Call Forward, Selective Call Rejection, and Selective Distinctive Alert.

o. All Call Privacy permanently blocks delivery of a subscriber's number and name on outgoing calls. [N]

5.2.3 Rates and Charges

a. Monthly Rates

Rates for this service are located in Section 12, Residential Network Switched Service, and Section 12, Business Network Switched Service.

b. Connection Charges (Nonrecurring Charges)

Connection charges may apply when a customer requests connection to one or more features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 12 of this Tariff.

c. Trial Period

The Company may elect to offer a free or reduced rate trial of any new Advanced Custom Calling feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials, below.

Issued: June 26, 2001

Effective: July 26, 2001

By: John B. Glicksman, Esquire, Vice President and General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE

5.3.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

5.3.2 Legacy Centrex-Type Service Features [T]

a. 3-Way Calling allows a subscriber to add a third party to an existing call and form a three-way conference call. [T]

b. 6-Way Calling allows a subscriber to call up to five other numbers to create a six-way conference call. [N]

c. Call Pickup

This feature allows a user to answer any call within an associated preset pickup group. If more than one line in the pickup group has an unanswered incoming call, the call to be answered is selected by the switching system. Call Pickup answers a call that has been directed to another station within the same preset Call Pickup group.

Issued: June 26, 2001

Effective: July 26, 2001

By: John B. Glicksman, Esquire, Vice President and General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Features (Cont'd)

[T]

d. Call Transfer - All Calls

Call Transfer allows a station user to transfer an established call to another station. The station from which the call is transferred will be assessed any long distance charges incurred as a result of the transfer.

e. Directed Call Pickup with Barge-In

This feature answers calls directed to a specific line from any other telephone line in the user group.

f. Directed Call Pickup without Barge-In

This feature is identical to the Directed Call Pickup with Barge-In except, if the line being picked up has already been answered, the party dialing the pickup code is routed to reorder (i.e., fast busy) rather than permitted to barge in on the established connection and create a three-way call.

g. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The pattern is based on whether the call is from within the station group, external to the station group, forwarded from the attendant position, or from a station within the Call Waiting feature.

Issued: June 26, 2001

Effective: July 26, 2001

By: John B. Glicksman, Esquire, Vice President and General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Features (Cont'd)

[T]

h. Distinctive Ringing / Call Waiting Tone (Centrex-type only)

This feature applies a distinctive ringing or call waiting tone that enables a user to determine the source of an incoming call. The pattern is based on whether the call is from within the station group, external to the station group, forwarded or extended from the attendant position, or from a station within the Call Waiting feature.

i. Multiline Hunting

[D] [N]

Hunt Group

Hunting is used to search for an idle line within a pre-defined multi-line hunt group. Each line in the multi-line hunt group is assigned a member number used for hunting

[D] [N]

Regular (sequential) Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, a busy signal is returned.

[N]

Circular Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, hunting continues from lowest member number up to the member before the dialed number. If no idle line is found, a busy signal is returned.

Uniform Call Distribution Hunting searches for an idle line beginning with the member with the fewest number of completed calls and continuing with the member with the next higher number of completed calls. When two or more members have the same number of completed calls, the hunt is conducted from the lowest to the highest member number. If no idle line is found by the end of the hunting sequence, a busy signal is returned.

 Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Features (Cont'd)

j. Speed Calling (Centrex-type only)

Speed Calling allows the subscriber to create and maintain a personal list of phone numbers, each of which can be dialed by entering one or two subscriber-specified digits.

Speed Calling 8 provides for a Speed Calling list of up to eight numbers, each dialed by one digit.

Speed Calling 30 provides for a Speed Calling list of up to 30 numbers, each dialed by two digits.

k. Terminal Group and Station Restriction (Centrex-type only)

This feature defines a station's network access capability, either individually within a Centrex-type group, or for the group as a whole. It defines the Centrex-type group and what level of access a station will have; i.e. intragroup only, toll restriction, etc.

l. Series Completion

This feature is a form of hunting similar to the multiline hunt group hunting and the Call Forwarding Busy Line feature. It allows calls to be made to a busy directory number to be routed to another specified directory number. The series completion hunt begins with the originally dialed member of the series completion group, and searches for an idle directory number from the list of directory numbers.

m. Uniform Call Distribution (Uniform Hunting) (Centrex-type only)

This feature is a hunting arrangement that assigns incoming calls uniformly among the stations in the group.

[T]

[D] [N]

[D] [N]

[N]

[N]

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Features (Cont'd) [T]

n. Account Codes

This feature adds an account number (code) to an Automatic Message Accounting (AMA) and/or Message Detail Recording (MDR) record for assigning customer charges. The number of digits in a customer's account code group will be defined by the Company.

[D]

[D]

o. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

p. Call Forwarding (Cont'd)

Call Forwarding Busy automatically reroutes an incoming call to a customer predesignated number when the called number is busy. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Don't Answer automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within a fixed period. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Variable allows the customer to choose to reroute incoming calls to another specified telephone number. The customer activates and deactivates this feature, and selects the forward-to number for each activation.

Remote Access to Call Forwarding Variable allows the subscriber to activate and deactivate Call Forwarding Variable from a telephone other than the one to which Call Forwarding Variable is assigned. A pre-assigned PIN provides the subscriber with security for activating and de-activating the feature.

Call Forwarding Fixed automatically re-routes an incoming call to a pre-designated number when Call Forwarding is activated by the user.

r. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

[N]

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

- r. Call Waiting Originating allows the subscriber to apply call waiting treatment to a busy called line for the duration of the call attempt. Use is restricted to the subscriber's inter-terminal group.
- s. Call Hold

Call Hold allows the subscriber to put an in-progress call on hold, place a second call and conduct a private conversation that the first caller can't hear, disconnect from the second call, then return to the original call.
- t. Call Transfer

Call Transfer allows the subscriber to transfer an in-progress call to another line. Use is restricted to the subscriber's intra-terminal group.
- u. Automatic Callback Calling

When a subscriber reaches a busy line, Automatic Callback Calling can be invoked with a dialed code to camp on to the busy line for up to 30 minutes and to alert the subscriber when that line becomes idle. This is not the same as Automatic Callback, and Advanced Custom Calling feature.
- v. Hot Line

A Hot Line Circuit automatically connects to a pre-determined number when the hot line phone goes off the hook.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

a. Standard Features Package

[N]

These common "core" features are offered to all Adelphia Centrex customers at no extra charge. They are included automatically.

- Automatic Callback Calling allows a subscriber to camp on a busy line for up to 30 minutes. When the lines of both the subscriber and the called party are idle, automatic callback calling alerts the subscriber with a distinctive ring.
- Call Forwarding Variable, when activated by the subscriber, forwards all calls placed to the subscriber's line to another subscriber specified number.
- Call Hold allows the subscriber to put an in-progress call on hold, then to place another call.
- Call Transfer allows a station line to transfer an established call to another station line inside or outside the customer group.
- Direct Inward Dialing allows incoming calls from the exchange network to reach a specific station line without attendant assistance.
- Direct Outward Dialing allows a station line to place external calls to the exchange network without attendant assistance.
- Directed Call Park allows a station line to park a call against another station line in the customer group, or to its own station line. The parked call can be retrieved from any station line by dialing a feature code and the line number against which the call is parked.
- Directed Call Pickup Without Barge-In
- Per Call Privacy prevents the station line name and number from appearing on the called party's Caller ID telephone or display unit. Must be activated prior to each outgoing call.
- Station to Station Dialing allows a station line to complete calls to other station lines within the customer group without the assistance of an attendant, usually by dialing 4 digits.
- Three Way Calling allows a station line to add a third party to an existing two-party call.
- Touch Tone - Dual tone Multi-Frequency or DTMF. Each button on a touch tone telephone set will produce a unique, simultaneous combination of two different tones, one high frequency and one low frequency.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

b. Optional No-Charge Features Package

These less common and/or mutually exclusive features are offered to all Adelphia Centrex customers at no extra charge (with the exceptions of Uniform Call Distribution, and queuing). Any or all of these features may be included at the customer's request.

- Account Codes are dialed immediately preceding an outward call and enable a user to associate a call with a specific account code.
- Authorization Codes are dialed immediately preceding an outward call and identify callers on the SMDR record, assign a Network Class-of Service (NCOS), and control network access.
- Call Forwarding Busy re-directs calls attempting to terminate to a busy station line to a pre-determined line inside or outside the customer group.
- Call Forwarding Don't Answer re-directs incoming calls to a pre-determined line inside or outside the customer group when the called station line does not answer within a pre-determined time.
- Call Waiting allows an internal or external incoming call to a busy station line to be held waiting while a signal is directed to the busy station line. Call Waiting may be canceled for a call by dialing a deactivation code immediately prior to the call, or by using the three-way calling and the deactivation code during a call.
- Cancel Call Waiting – Call waiting may be canceled for a call by dialing a deactivation code immediately prior to the call, or by using three-way calling and the deactivation code during a call.
- Distinctive Call Waiting Tones provides different call waiting tone cadences for internal and external calls to the customer group.
- Distinctive Ringing provides different ringing patterns for internal and external calls to the customer group.
- Group Call Pickup allows a station line to answer incoming calls to another station line within a defined call pickup group.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

b. Optional No-Charge Features Package (Cont'd)

- Hunting routes an incoming call directed to a busy station to an idle station line within a pre-arranged hunt group. Three varieties of hunting are available at no extra cost: sequential, series completion (regular), and circular. Uniform Call Distribution (UCD) is a variety of hunting available as a chargeable feature. A sequential hunt routes a call directed to a busy station to the sequential hunt number assigned to the station, up to a maximum of 16 numbers. A series completion (regular) hunt requires a multi-line hunt group, and routes a call directed to a busy station to the next station in the multi-line hunt group list, when the hunt reaches the end of the list, the hunt terminates. A circular hunt requires a multi-line hunt group, and routes a call directed to a busy station to the next station in the multi-line hunt group list, when the hunt reaches the end of the list, the hunt continues with the first station on the list until the original station is reached, then the hunt terminates. For a definition of UCD, see Uniform Call Distribution in the Optional Chargeable features section. Queuing is available with all multi-line hunt group types; see queue Slot in the Optional chargeable features section.
- Intercept routes incoming external calls made to a non-working Centrex-Type line or outgoing calls that violate class of service restriction to a generic announcement.
- Line Treatments provide the capability to allow or deny certain types of individual station line features, call origination, and call termination.
- Speed Calling 6 permits a station line user to dial selected numbers using fewer digits than normally required, using customer-defined codes. There are six codes available, applicable only to that individual station.
- Speed Calling 30 permits a station line user to dial selected numbers using fewer digits than normally required, using customer-defined codes. There are thirty codes available, applicable only to that individual station line.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelpia Centrex-Type Service Feature Groups (Cont'd)

c. Optional Chargeable Features Package

[N]

Any or all of these chargeable, customer specific features will be included in Adelpia Centrex at the customer's request.

- Automatic Route Selection (ARS) Automatically selects the preferred route for network calls when a station user dials a pre-selected code.
 - ARS – Expensive Route Warning Tone provides a warning tone to indicate the selection of an expensive route.
 - ARS – Facility Restriction Level determines both the type of call and the type of facility available to the associated user.
 - ARS – NPA/NXX Restrictions enables the restriction of NPA and/or NXX codes for stations within a customer group.
- Carrier Access Port enables a station user within the customer group to directly access a customer-specified interexchange carrier through the use of access codes or automatic route selection. Private facilities to the interexchange carrier are required.
- Loudspeaker Paging Access allows a station line user to access customer-provided loudspeaker paging equipment by dialing an access code. Requires dedicated signal circuit.
- Message Waiting Lamp lights a lamp on suitable equipped customer-provided station equipment to signify a voice mail message waiting status. This feature is provided free of charge with Adelpia Voice Mail. If an alternate voice mail vendor is used, this feature carries a charge and may require customer-provided private facilities.
- Music On Hold provides music for callers placed on hold within the Centrex system. Requires suitable customer-provided music source. Requires customer to purchase necessary circuit(s).
- Remote Access to Call Forwarding Variable enables the subscriber to activate and de-activate Call Forwarding Variable from a line other than the subscribing line, using a PIN and following voice prompts. Requires Call Forwarding Variable on the subscriber's line.
- Secondary – Only Telephone Number – A telephone number which does not have its own facilities, but uses the facilities of a primary directory number.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)**5.3 CENTREX-TYPE SERVICE (Cont'd)****5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)****c. Optional Chargeable Features Package**

- Six-Way Calling allows a station line to establish a conference call of 4-6 conferees without the assistance of the attendant.
- Time of Day Network Class of Service Routing provides dynamic class-of-service (COS) values based on the time of day, day of week, or week of year.
- Uniform Call Distribution (UCD) is a multi-line hunt feature. A UCD is designed to deliver a more equitable distribution of incoming calls to all stations in the multi-line hunt group than other hunting options. A UCD group is assigned a directory number specific to the UCD group, but not specific to any station within the UCD group. Calls to the UCD directory number are directed to the station next on the UCD group list after the last station to answer a call directed to the UCD directory number. If that station is busy, the call routes to the next station in the multi-line hunt group list, and so on. When the hunt reaches the end of the list, the hunt continues with the first station on the list until the original station is reached. If no stations are idle, queueing is available; see Queue Slot below.
- Queue Slot provides a queueing or "waiting area" for calls directed to a multi-line hunt group that has no idle stations. The size of the queue is equal to the number of queue slots purchased by the customer. Queued calls are directed to the next idle station on a first in, first out basis. Queued callers will hear ringing. Messages or music for queued callers is available with customer-provided equipment. If all stations are busy and the queue is full, the caller will hear a busy signal.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

d. Advanced Custom Calling Features Package

[N]

Any or all of these chargeable features are available to the subscriber upon request.

- Automatic Callback redials the telephone number of the most recent incoming, internal, or external call automatically. If the redialed line is busy, the call will be attempted for a maximum of 30 minutes. Should the redialed line become idle during this period and the originating station line is available to complete the call, then a distinctive ringing signal will alert the originating station line that the call can be completed.
- Automatic Recall redials the telephone number of the most recent outgoing external call automatically. If the redialed line is busy, the call will be attempted for a maximum of 30 minutes. Should the redialed line become idle during this period and the originating station line is available to complete the call, then a distinctive ringing signal will alert the originating station line that the call can be completed.
- Call Trace initiates a trace of the most recent incoming call by dialing a special code immediately after terminating the call. The central office equipment records and stores the incoming call message detail (date and time of the call and telephone number) provided that the call was completed over suitably equipped facilities, and the customer has not made or received another call after the call to be traced was terminated. The results of the trace are not provided to the customer directly, but are automatically reported to Adelphia where it can be obtained by an appropriate law enforcement agency when the customer files a complaint. Adelphia assumes no responsibility for damages if a trace attempt is not successful.
- Caller ID – Number displays the originating telephone number of an incoming call on customer-provided equipment.
- Caller ID – Number & Name displays the originating telephone number and associated name of an incoming call on customer-provided equipment.

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

d. Advanced Custom Calling Features Package (Cont'd)

- Directory Number Privacy prevents the station line name and number from appearing on the called party's Caller ID telephone or display unit. If the feature is active, the deactivation code will toggle the feature off for a single call. If the feature is not active, the activation code will toggle the feature on for a single call.
- Selective Call Acceptance allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be accepted.
- Selective Call Forwarding allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be forwarded to another subscriber-specified phone number.
- Selective Call Rejection allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will not be accepted.
- Selective Distinctive Alert allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be announced with a special ring.

e. Attendant Console Features Package

These chargeable features are available only as a complete package providing advanced attendant call handling features. These features require an attendant console.

- Attendant Access to Paging allows an attendant to access customer-provided loudspeaker paging equipment. Requires dedicated signal circuit.
- Attendant Autodial permits the dialing of a frequently called number by depressing the autodial feature key, which is programmed with the number.
- Attendant Automatic Recall returns attendant extended calls to the console after a predetermined time period.
- Attendant Camp-On allows the attendant to extend an incoming call to a busy station. When the call in progress terminates, the camped-on call will ring at the station.

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

e. Attendant Console Features Package (Cont'd)

- Attendant Conference allows an attendant to establish a six-port conference call.
- Attendant Speed Calling Allows an attendant to dial frequently dialed numbers by depressing a speed dial key and dialing one or two digits instead of all digits in the number.
- Attendant Transfer allows calls transferred by a station line user to the attendant to be queued on a first-in, first-out basis.
- Busy Verification of Station Lines allows the attendant to determine if a station line is idle.
- Busy Verification of Trunks allows the attendant to determine if a trunk is idle.
- Call Park Recall Timer provides a separate timer for calls parked by the attendant. The timer defines the maximum time period that a call can spend in the parking mode. If the call is not retrieved or abandoned within the defined timer, the call is unparked and the attendant is recalled.
- Call Splitting allows the attendant to talk privately to either the calling party or the called party.
- Caller ID – Number & Name Displays the originating telephone number and associated name of an incoming call on customer-provided equipment.
- Direct Station Selection allows the attendant to access station lines by depressing a button associated with that station.
- Interposition Calling allows communication and transfer of calls between attendants.
- Multiple Console Operation allows the assignment of more than one console per system.
- Night Service Flexible – Calls that are normally routed to the attendant during the day are routed to pre-designated locations at night.
- Position Busy allows the attendant to make the console unavailable to additional queued calls.
- Trunk Answer From Any Station allows any station in the customer group to answer an incoming call by dialing a code. The code is dialed when the TAAS alerting device sounds.

5.3.3 Adelphia Centrex-Type Service Feature Groups (Cont'd)

f. Digital Electronic Telephone Set (DETS) Features Package

These chargeable features are available only as a complete package exclusively for digital centrex customers. The package provides advanced station call handling features.

- Add On Module allows for the provisioning of additional modules attached to a DETS.
- Auto Intercom allows a digital electronic telephone set user to directly terminate on another pre-designated digital electronic telephone set by depressing the intercom key.
- Automatic Call Hold eliminates the need to activate the hold feature or hold button prior to answering a second call appearance. When a second call appearance is selected, the first call appearance is automatically put on hold.
- Caller ID – Number & Name displays the originating telephone number and associated name of an incoming call on customer-provided equipment.
- Direct Station Selection allows the user to ring a monitored appearance station line by depressing the button associated with that monitored appearance.
- Display Called Number provides the user of a digital electronic telephone set equipped with an LCD with a display of dialed digits during the origination, termination, programming, and feature activation operations.
- Feature Access provides for the use of dial codes as an alternative method of accessing digital electronic telephone set features by feature keys.
- Feature Display provides the user of a digital electronic telephone set equipped with an LCD with a display of user-entered data and incoming call information during the use of other Centrex Features.

f. Digital Electronic Telephone Set (DETS) Features Package

- Group Intercom enables a station line to terminate, using abbreviated dialing, on a member of a designated intercom group without using a call appearance.
- Multiple Appearance of Centrex Lines allows an analog or digital Centrex-Type line to be assigned to one or more additional digital electronic telephone sets. Allows on Centrex-Type line to appear multiple times on the same digital electronic telephone set.
- Time Key provides the current time and date on a digital electronic telephone set display.

5.3.4 Rates and Charges

a. Monthly Rates

Rates for this service are located in Section 12, Residential Network Switched Service, and Section 12, Business Network Switched Service.

b. Connection Charges

Connection charges may apply when a customer requests connection to one or more features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 12 of this tariff.

c. Trial Period

The Company may elect to offer a free or reduced rate trial of any new Centrex-type feature(s) to prospective customers within 90 days of the establishment of the new feature. See Section 5.4, Service and Promotional Trials.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.4 SERVICE AND PROMOTIONAL TRIALS

5.4.1 General

[D] [N]

CONTRACTS

At the option of the Company, service may be offered on a contract basis to meet specialized requirements of the Customer not contemplated in this tariff. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein, waiver of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company's general service offerings, or other customized features. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specific in each individual contract.

DEMONSTRATION OF SERVICE PROMOTION

From time to time the Company may demonstrate service for potential Customers by providing free use of its network on a limited basis for a period of time, not to exceed one (1) month. Demonstration of service and the type, duration or quantity of service provided will be at the Company's discretion and regulations established by the Commission. All demonstrations are offered on a non-discriminatory basis, and will be conducted in accordance with Commission rules regarding promotional offerings.

COMPETITIVE RESPONSE PROMOTION

In order to acquire or retain customer, the Company may match certain offers made by other inter-exchange carriers/resellers where the customer can demonstrate to the Company's satisfaction that it intends to accept such offer as an inducement to subscribe to or remain subscribed to such other inter-exchange carrier's/reseller's services. These rates will be offered to the Customer in writing and on a non-discriminatory basis and in accordance with Commission rules regarding promotional offerings. Information concerning contracts resulting from a special request will be submitted to the Commission and such services will be added to this tariff as they are developed.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.4 SERVICE AND PROMOTIONAL TRIALS (Cont'd)

5.4.2 Regulations

- a. Appropriate notification of the Trial will be made to all eligible customers and to the Commission. Appropriate notification may include direct mail, bill inserts, broadcast or print media, direct contact or other comparable means of notification.
- b. During a Service Trial, the service(s) is provided automatically to all eligible customers, except those customers who choose not to participate. Customers will be offered the opportunity to decline the trial service both in advance and during the trial. A customer can request that the designated service be removed at any time during the trial and not be billed a recurring charge for the period that the feature was in place. At the end of the trial, customers that do not contact the Company to indicate they wish to retain the service will be disconnected from the service at no charge.
- d. During a Promotional Trial, the service is provided to all eligible customers who ask to participate. Customers will be notified in advance of the opportunity to receive the service in the trial for free. A customer can request that the service be removed at any time during the trial and not be billed a recurring charge for the period that the service was in place. At the end of the trial, customers that do not contact the Company will be disconnected from the service.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.17 INTEGRATED ACCESS SERVICE (IAS) [N]

IAS is a communications service that provides a combination of local and data services to small and medium businesses using on-net services. The Customer must purchase, at the same customer location, local exchange access services, (measured or flat-rated), and Dedicated Data Bandwidth services from the Company.

IAS allows a Customer to integrate voice and data services on a single high capacity facility. The standard configuration involves having a single DS-1 to the Customer's premise. The Customer selects a package of 5-8, 9-12, 13-16, or 17-20 voice lines for local exchange access. The balance of the facility's capacity is available for data applications.

One-year, Two-year, and Three-year service term packages are available -- Customer must, at a minimum, sign a one-year service term agreement to qualify for IAS pricing. The rates herein are for multi-line business service, the Dedicated Data Bandwidth connection, and appropriate End User Common Line Charges (EUCL). Per minute charges associated with IAS will be measured usage, if applicable.

A. Basic Voice Line Features:

Each IAS voice line includes the following features with no additional monthly recurring charges:

- Call Forwarding Busy
- Call Forwarding Don't Answer
- Call Forwarding Variable
- Call Waiting Terminating
- Caller ID Name and Number
- Directory Listing
- Speed Call One Digit (8 numbers)
- Three Way Calling
- Touch Tone

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

[N]

5.17 INTEGRATED ACCESS SERVICE (IAS) (Cont'd)

B. Optional Additional Voice Line Feature Packages (additional monthly recurring charges are imposed for selection of either of these Optional Feature Packages. See Rates and Charges Section 12 (Integrated Access Services – Optional Features Packages):

1. Callback Feature Package:
 - Automatic Recall
 - Automatic Callback
 - Call Trace

2. Selective Call Features Package:
 - Selective Call Acceptance
 - Selective Call Forward
 - Selective Call Rejection
 - Selective Distinctive Alert

Monthly rates and non-recurring charges for this service appear in Section 12 of this Tariff.

C. Conversion and renewal of Term Contracts

1. Prior to expiration of the service period, Customers may convert an existing term agreement to a new term agreement at current tariff rates without incurring termination charges provided the period for the new term agreement is equal to or greater than the original term agreement. Customers converting to a new service term will be required to sign a new Customer Service Agreement. Conversion and renewal, as described in this section, applies to both the initial Service Agreement and any subsequent Service Agreements (extended service terms) executed by the Customer for this service provided that the Agreements continue without interruption.

2. Customer must provide Adelphia Business Solutions with written notice of intent to renew an existing initial service period no later than 90 days prior to the expiration of the initial service period. The Service Agreement will renew at the tariffed rates in effect at the time of the renewal.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

[N]

5.17 INTEGRATED ACCESS SERVICE (IAS) (Cont'd)

D. Termination of Term Contracts

1. The Customer must provide Adelphia Business Solutions with a written notice of intent to renew an existing or extended service agreement no later than 90 days prior to the expiration of the existing contract.
2. If the Customer elects not to renew the Service Agreement or does not notify Adelphia Business Solutions of intent to renew, the service will then automatically be billed under the tariffed rates for the service term package in effect on the date the initial or extended service period expires.
3. In the event the Customer cancels service prior to expiration of the term commitment, an early termination penalty is computed and applied as a lump sum to the Customer's bill as set forth in Section 7.2.7(G).

E. Upgrade in Service

1. Customer may upgrade Service Term Agreement (add additional lines, which may result in reducing the Dedicated Bandwidth Speeds) without incurring termination charges provided all of the following conditions are met:
 - a. The new service arrangement is provided to the same customer at the same location as the discontinued service arrangement, and
 - b. Customer's request for discontinuance of the existing service arrangement and request for the new service arrangement are received at the same time.

If the order to upgrade service does not meet the conditions above, it will be treated as a disconnection of the existing service and establishment of a new service. All termination charges will then apply.

F. Moves to a New Location

A Customer with an existing Service Term Agreement may request a move of the service to a new location, or a move and an upgrade, or a move and a change of Service Term Agreement so long as the entire Integrated Access Service is moved. Termination charges will not apply.

Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

[N]

5.17 INTEGRATED ACCESS SERVICE (IAS) (Cont'd)

G. Termination Charges

Customers requesting to discontinue services provided under a Service Term prior to the expiration of the Initial Service Period or Extended Service Period will incur termination charges pursuant to subsections 1 and 2 below, as applicable. Payment of the termination charges for Integrated Access does not release the customer from other previous amounts owed to Adelphia Business Solutions. If special construction was applied to the service being terminated, any termination charges associated with the special construction will apply in addition to the termination charges for early termination of the Initial Service Period or the Extended Service Period.

1. Termination Charges for the Initial Service period shall be the lesser of:
 - a. The difference between the recurring rates and non-recurring charges for the completed months of the initial Service Term at the time of termination and the current recurring rates and non-recurring charges for the next lower Service Term actually completed; or,
 - b. The sum of the monthly recurring payments remaining on the Service Term.
2. Termination Charges for the Extended Service Period shall be the lesser of:

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.3 PBX Trunk Service

a. General

[D]

[D]

Trunk lines connect the central office with a customer-premises PBX system or other customer-provided equipment and systems that select and seize a vacant line for incoming and outgoing calls at its premises. Trunk lines do not terminate directly on a phone set. They terminate in either the attendant position, or in the PBX common equipment. The customer's system can be programmed to eliminate the need to go through the attendant by routing calls directly to or from individual numbers.

[N]

Dial-type PBXs may terminate inward, outward, or two-way trunk lines. Manual PBXs terminate only two-way trunk lines.

Trunks can be configured for three types of service, based on the direction that calls are transported between the central office and customer-premises:

Inward-only service provides for one-way calling from the central office switch to the customer-premises equipment. Depending on how the customer programs its system to route calls, an inward call can terminate at either the dialed number (called DID, for Direct Inward Dialing) or at the attendant position (called non-DID). Outgoing calls cannot be made over a trunk with inward-only service .

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.3 PBX Trunk Service (Cont'd)

a. General (Cont'd)

Outward-only service provides for one-way calling from the customer-premises equipment to the central office switch. Depending on how the customer programs its system to route calls, a vacant outgoing line can be accessed either directly from the calling line (called DOD, for Direct Outward Dialing, typically invoked by dialing "9"), or from the attendant position (called non-DOD). Incoming calls cannot be received over a trunk with outward-only service.

Combination service provides for two-way calling between the central office switch and customer-premises equipment. Depending on how the customer programs its system to route calls, inward calls can be either DID or non-DID, and outward calls can be either DOD or non-DOD. Since most combination trunks provide for DID and DOD calling, and they are often referred to as DIOD (Direct Inward/Outward Dialing) trunks.

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

Each DS0 level Trunk has the following characteristics:

- Terminal Interface: 2-wire or 4-wire, as required for the provision of service
- Signaling Type: Loop, Ground, E&M I, II, III
- Pulse Type: Dual Tone Multi-Frequency (DTMF) or Dial Pulse (DP)
- Calling Direction: One-way inward-only, one-way outward-only, or two-way inward and outward

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)**7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)****7.2.3 PBX Trunk Service (Cont'd)****b. Measured Rate PBX Trunks****(1) Description**

Measured Rate DS0 PBX Trunks provide the customer with a single voice grade telephonic communications channel which can be used to place or receive one call at a time. Local calls placed over combination trunks and outward-only trunks are billed according to the measured-rate local calling plan.

[]
|
[]**(2) Recurring and Nonrecurring Charges**

In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff. Charges for each Measured Rate PBX Trunk include a monthly recurring Base Service Charge and usage charges for completed calls originated from the customer's lines based on the duration of calls during the billing period. Local calling areas are as specified in Section 11. Service to customers may require the use of a link (and, or) number portability arrangements from the incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the Company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.

[X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.
