Any local exchange line used for Company service which is disconnected and then reconnected for the purpose of subscribing to any of the following promotions will not be eligible to receive such promotion. In addition, the customer will not receive the benefits of any promotion if there is no outbound usage associated with any ANI (and local exchange line) during the first thirty days of service following the customer's subscription to service. Customers who receive the benefits of a promotion involving services or goods of a third party, which benefits are subject to taxation by any authority, will be responsible for payment of said taxes, other than taxes based on net income, by determining the total tax obligation and developing a single rate for application to all customers who receive the promotional benefits. The specific rates, terms and conditions applicable to each promotional offering will be described below.

**Miscellaneous Promotions Offering Financial Inducements**

From time to time, the Company will offer financial inducements to new and/or existing customers who subscribe to and use new or additional Company service (s) in response to media advertising, direct mail materials, telemarketing programs and/or personal sales presentations, which offer such an inducement. The benefits offered will be provided: (1) by giving the subscriber a credit against a specified Company invoice for usage of the service (s) in question, or other one-time or recurring charges in connection with such service (s) (this may include offers of specified amounts and kinds of free calling on the Company) or, if the customer is billed for usage of Company service (s) by a local exchange company (LEC), the credit may, if so stated, be applied against any charge for telephone service reflected on the LEC's bill; (2) by issuing to the subscriber a check payable to the subscriber, or to the Company, or to a cooperating LEC (such a check will be drawn on a bank in which the Company has funds on deposit and can be cleared or processed through normal banking channels);
