DECISION NO. 61676

ORDER

9 Open Meeting
April 19 and 20, 1999
10 Phoenix, Arizona

11 BY THE COMMISSION:

12 FINDINGS OF FACT

13 1. Arizona Water Company ("AWC" or "Company") is an Arizona public service
14 corporation certified to provide water service to customers through eighteen systems located
15 throughout the State.

16 2. On March 17, 1999, the Company filed an application to change their Tariff AM-254,
17 which is the Purchased Water Adjustment Mechanism ("PWAM") for their San Manuel System from
18 \$0.21 to \$0.24 per thousand gallons (\$0.024 per 100), including minimum gallons.

19 3. Arizona Water Company's San Manuel System has no wells; all the water is purchased
20 from BHP Copper, the successor to Magma Copper Company, AWC's previous supplier. The PWAM
21 rate for the San Manuel System was set at zero when AWC had new company-wide base rates
22 approved on December 23, 1992, per Decision No. 58120. In 1995, Magma threatened to cut off the
23 water supply if AWC did not agree to a steep rate increase and possible curtailment or even
24 discontinuance of water service at Magma's discretion. AWC sued Magma, but paid an increase of
25 \$0.21 per 1,000 gallons to \$0.57 per 1,000 gallons at that time. In Decision No. 59075, dated May 4,
26 1995, the Commission set the PWAM at \$0.21 per 1,000 gallons (\$0.021 per 100) for the San Manuel
27 System. Subsequent to that event, AWC lost their lawsuit to BHP Copper, Magma's successor, and
28 has had to enter into a new agreement on BHP's terms. The new agreement raises the water price to

1 \$0.60 per 1,000 gallons, compared to \$0.36 per 1,000 gallons for the base period, effective June
2 1999. AWC has requested an increase of \$0.03 per 1,000 gallons, to \$0.24 per 1,000 gallons effective
3 June 1, 1999.

4 4. Staff has reviewed the Company's request, the new water supply agreement, and the
5 Company's computation of the required PWAM. The Company's request is in accordance with the
6 agreement and the new PWAM calculation is correct. Staff will propose an increase in the PWAM.

7 5. With the implementation of the Staff-proposed PWAM factor, the average residential
8 bill will increase \$0.38 monthly (1.4 percent) from \$26.85 to \$27.23, based on an average usage of
9 12,407 gallons per month.

10 6. Staff recommends approval of a PWAM rate of \$0.024 per 100 gallons, including
11 minimum gallons to become effective with the first billing cycle in June, 1999.

12 CONCLUSIONS OF LAW

13 1. Arizona Water Company is an Arizona public service corporation within the meaning
14 of Article XV, Section 2, of the Arizona Constitution.

15 2. The Commission has jurisdiction over Arizona Water Company and its Purchased Water
16 Adjustment Mechanism.

17 3. Approval of the new PWAM factor will not result in an increase in rates within the
18 meaning of A. R. S. Section 40-250.

19 4. The Commission, having reviewed the Company's application and Staff's Memorandum
20 dated April 5, 1999, concludes that approval of the proposed PWAM rate change is in the public
21 interest.

22 ORDER

23 THEREFORE, IT IS ORDERED that Arizona Water Company's PWAM factor be increased
24 to \$0.024 per 100 gallons, including minimum gallons, to become effective with the first billing cycle
25 in June, 1999.

ORDER

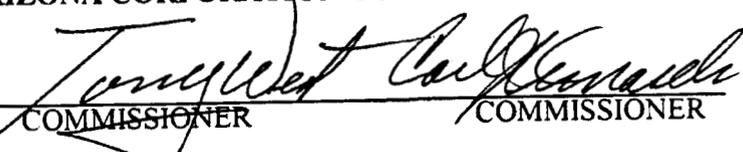

THEREFORE, IT IS ORDERED that Arizona Water Company's PWAM factor be increased to \$0.024 per 100 gallons, including minimum gallons, to become effective with the first billing cycle in June, 1999.

IT IS FURTHER ORDERED that AWC submit revised rate schedules to its tariff to reflect the change in the PWAM rate by May 28, 1999.

IT IS FURTHER ORDERED that this Decision shall become effective immediately.
