He is really outraged in just thinking about raise that amount at all once when they are just a monopoly and the people don't have a choice. The people and the city should have a say so. It's a matter of survival in the summer months. I wish the Corporation Commission will take this into consideration.

Opposed to Proposed Rate Increase. The 20% increase is a hefty increase. I'm a school bus driver and with this type of increase I will not be able to pay the bills, including my 30 yr mortgage. I would like for the elected officials to know what a huge impact this increase will be for the consumer on a fix income.

Opposed to the proposed rate case increase. He feels that the holding company should pay for the profits that they are taking from the customer just to maintain themselves. Businesses like APS should not be able to pass this cost to the consumer, like the transformer incident, Palo Verde Plant, and the new customer expansion.

Opposes the 20% proposed rate increase. This is to big of an increase all at one time. Especially fighting with the prices of gas. Electric is expensive as it is. If I could change companies and get a better deal I would.
