IV. CONCLUSION.

For the reasons described above and in Level 3's opening brief, the Commission should accept Level 3's positions on the issues in dispute between Level 3 and Qwest. Specifically, the Commission should rule: (a) that Level 3 may interconnect with Qwest at a single POI per LATA; (b) that Qwest may not charge Level 3 for originating traffic to Level 3, either on a per-minute basis, a per-facility basis, or on the basis of a "relative use factor"; (c) that all traffic types may be combined on "local" interconnection trunks; (d) that Level 3 may use VNXX routing for its ISP-bound and VoIP traffic; and (e) that the intercarrier compensation rate for all traffic shall be \$0.0007 per minute, other than true telephone toll service traffic, to which access charges apply. Level 3's contract language implements these reasonable conclusions and should be adopted.

Respectfully submitted this 2nd day of December, 2005.
