Dear Valued Local Service Customer,

Effective October 1, 2001, TCG Phoenix (Teleport Communications Group), a wholly owned subsidiary of AT&T, is revising its call timing and rating of local and intraLATA (Local Access and Transport Areas) toll usage in Arizona. For each call, the timing and rating will be revised as follows:

- Usage is timed and rated per call in increments specified in the applicable service tariffs. Timing begins with completion of the connection to the called number and ends with the termination of the connection.
- Rating of local and intraLATA toll service calls is based on the duration of the call. Partial increments will be rounded up to the next full increment and partial cents will be rounded to the next whole cent. As a result, you will see an increase on your bill.
- These call timing and rating changes are consistent with industry methods, keeping AT&T Local Service competitive in the marketplace, while maintaining the quality of our services.

This change will be voted on at a future Open Meeting of the Arizona Corporation Commission. These changes will become effective only upon approval by the commission. If you have any questions, please contact TCG/AT&T Customer Care toll-free telephone number at 800-222-0400. If you have further questions, you may contact the Consumer Services Section at the Commission at 602-542-4251 or 1-800-222-7000 or you may go to our website at <http://www.cc.state.az.us/>.

Thank you for your business.

Sincerely,

TCG Local Service
