## MEMORANDUM

TO: David Ronald  
Legal Division

FROM: Elena Zestrijan  
Utilities Division

DATE: January 4, 2006

RE: RESPONSE TO COMPANY'S RESPONSE (Filed 12/29/2005) TO STAFF REPORT, FOR WHY UTILITY COMPANY, INC. APPLICATION FOR A PERMANENT INCREASE IN WATER RATES AND APPROVAL OF FINANCING (DOCKET NO. W-02052A-05-0529 & W-02052A-05-0528)

Staff disagrees with Company's Response - Page 1, Line 26 through Page 3, Line 13 – Depreciation Expense.

The Company has not provided Staff with retirements or replacement invoices of the pumping equipment prior to the test year. Staff based its calculation on Staff Engineer's going forward depreciation rates. The new information offered in the Company's response is unsubstantiated and un-audited. Staff continues to recommend depreciation as outlined in the Staff Report.

Staff disagrees with Company's Response - Page 3, Line 14, through Page 4, Line 4 – Financing/Rates.

The Company has confused "average" usage with "median" usage. There is no "shortfall" of revenue as Staff based its revenue requirement on results obtained from auditing the Company's books.

Staff's recommended rates will provide the Company with sufficient revenue to cover financing debt to fund the purchase and construction of arsenic removal equipment and sufficient cash flow for the Company to service its customers.

Furthermore, Staff's recommendations encourage the Company to file rate increase applications every three to five years rather than waiting another 39 years.
