Re: Docket No. T-03940A-00-0771 - Application of Dynamic Telcom Engineering I, LLC for a Certificate of Convenience and Necessity to Provide Resold and Facilities-Based Telecommunications Services Throughout the State of Arizona

Dear Mr. Berg:

Enclosed on behalf of Dynamic Telcom Engineering I, LLC ("DTE") are an original and one copy of DTE's responses to Qwest Corporations's First Set of Data Requests to DTE in the above-referenced docket. Please date stamp the extra copy of this filing and return it in the self-addressed envelope provided. If you have any questions, please do not hesitate to contact me at (202) 371-7392.

Respectfully Submitted,

John Beahn

Counsel to Dynamic Telcom Engineering I, LLC

cc: James Moskowitz
Arizona Corporation Commission

Request No. 1.1:

Please provide a copy of any past or future formal or informal requests for information and associated responses from all parties other than Qwest. This request is continuing in nature, so please supplement your responses as appropriate.

Response:

DTE responded to a Commission request for further information in this proceeding. DTE's responses, however, contained confidential and proprietary information that could competitively disadvantage DTE and hinder its ability to implement its Arizona business plan and conduct its operations as specified in its Application. Accordingly, DTE respectfully declines to provide this information at this time.

Request No. 1.2:

Please identify and describe all Dynamic assets located in Arizona including but not limited to: (1) property (e.g. real estate plant and equipment); (2) cash and cash equivalents, accounts receivable, unbilled revenue, other receivables, material and supplies inventory, service/supply contract, income tax refund, and prepaid expenses; (3) other assets including but not limited to non-utility property, office equipment, office supplies, computers, plant for future use if applicable, deferred expenses, and deposits; and, (4) non-regulated assets. This request is continuing in nature, so please supplement your responses as appropriate.

Response:

DTE does not have any assets located in Arizona.

Response No. 1.3:

To the extent not already provided in data request Numbers 1.1 and 1.2, please provide a copy of all financial statements, including but not limited to all information relating to Fair Value Rate Base ("FVRB") information supplied to the Commission in support of your application for a CC&N.

Response:

As a privately held company, any disclosure of DTE's financial information could competitively disadvantage DTE and hinder its ability to implement its Arizona business plan and conduct its operations as specified in its Application. Accordingly, DTE respectfully declines to provide its financial statements. DTE provided projections of the value of all plant and equipment to be used to provide telecommunications service to Arizona customers at the time Applicant begins serving its first customer to the Commission in support of its Application. However, any disclosure of this information could competitively disadvantage DTE and hinder its ability to implement its Arizona business plan and conduct its operations as specified in its Application. Accordingly, DTE respectfully declines to provide this information at this time.
