Re: Docket No. W-01344A-04-0815, Tacna Water Management Company's objection to Intervention, and letter of application for franchise from Yuma County Board of Supervisors.

To Whom It May Concern

Tacna Water Management Company has applied with the Yuma County Board of Supervisors for a franchise license with Yuma County. Attached is a letter from the Yuma County Board of Supervisors verifying our application and approximate time frame for approval. Yuma County doesn't assign territory or areas for utility companies. Sue Stallworth, with the Yuma County Board of Supervisors, told me that the Arizona Corporation Commission designates utility areas in Yuma County. Utilities in Yuma County such as power, water, electric and gas are overlapping, allowing all utilities to use the same Yuma County right of ways.

If you have any questions please call me, Don Kelland, at 928-580-1799 or Steve Kelland @928-246-3487. Thank you

Re: Tacna Water Management Company  
Application for Franchise License in Yuma County

In accordance with Arizona Revised Statute §40-283, Yuma County issues (by action of the Board of Supervisors) franchise licenses to public utilities/services, telecommunications corporations or cable television systems to construct a line plant, service or system within the right-of-way of any road, highway or easement that is designated for access or public use.

Yuma County's process requires submission of an application by the requesting entity. The application must include a legal description for the boundaries of the proposed or expanded service area to be covered by the franchise license.

The Tacna Water Management Company has filed an application with Yuma County for a new franchise license to provide water utility service. The application is currently being reviewed and final action to grant the license is expected to occur before March 31, 2006.

If you have any questions or would like additional information, please call me at (928) 373-1105.

Sincerely,

  
SUE STALLWORTH  
Clerk, Board of Supervisors
