RECEIVED

"Tacna Water Management Company" referred to as "Tacna Water" and
"Mohawk Utility Company" referred to as "Mohawk."

It is our opinion that Tacna Water is encroaching on areas that Mohawk is already serving and also where Mohawk's water plant is located. In addition to areas that we will be serving in the near future.

Mohawk has recently filed an extension to our CC&N which will address the areas which we feel Tacna Water is encroaching on.

Currently we have the county franchise in some of the areas that Tacna Water has requested in their application. Mohawk is only requesting areas that our currently being served or that we are working on putting water on. Mohawk needs the areas we are requesting in our application to remain viable in the future. It is Mohawk's request that Tacna Water serve areas east of Avenue 39E and Mohawk serve areas west of Avenue 39E.

Mohawk does not believe Tacna Water's track record allows for expansion. Customers are constantly out of water service for periods of 24 hours or longer and some are not even being billed for water use. The quality of water from their well is also questionable with high levels of fluoride and sodium.

Mohawk is growing at a constant rate of about 6 new hook-ups per year. We are currently working with a developer who is going to put in a 160-acre housing project in the near future.

Mohawk's interests are strictly customer targeted. It is not Mohawk's desire to become a "water baron". We just want a fair decision. Mohawk is not against Tacna Water expanding, we just don't want it in Mohawk's area.

Respectfully,
