“IT IS FURTHER ORDERED that, consistent with Finding of Fact No. 1, all open spaces, including golf courses, will be irrigated with reclaimed water from the wastewater reclamation plant.

IT IS FURTHER ORDERED that in recognition of ongoing drought conditions in Arizona, Perkins Mountain Utility Company shall provide the Commission within one year after the effective date of the order granting this application a detailed report describing the company’s progress toward the use of effluent specifically as it pertains to golf courses, open spaces, ornamental lakes and streams, and any other aesthetic water features. Thereafter, this report shall be filed annually by February 15 of each year with the Commission’s Docket Control until Perkins Mountain Utility Company’s next general rate case.”
