Interexchange Service Tariff

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

30 Member Speed Calling: A service/feature associated with local exchange service which is defined in the tariff of the Affiliated LEC or Affiliated CLEC.

A.C.C.: A.C.C. stands for the Arizona Corporation commission.

Access Advantage Plus®: A registered trademark of SBC Knowledge Ventures, Inc. Access Advantage Plus® is a service/feature associated with local exchange service which is defined in the tariff of the Affiliated LEC or Affiliated CLEC.

Access line: A communications facility that connects service from a common distribution source to the service access point.

Affiliate means any other entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, the entity making alternative operator services available to the public. For purposes of this definition, the term "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any entity, means the power to direct the management policies of such entity, whether through the ownership of voting securities, by contract, or otherwise.

Affiliated CLEC: A CLEC with which the Company has any of the following relationships: (1) owns or controls it; (2) is owned or controlled by it; or (3) is under common ownership with it.

Affiliated LEC: A LEC with which the Company has any of the following relationships: (1) owns or controls it; (2) is owned or controlled by it; or (3) is under common ownership with it.

Aggregation: The combining of a Customer's total usage across multiple BTNs into a group for the purpose of determining a common usage rate for call(s) associated with the individual BTNs.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Aggregation ID: Aggregation Identifier. Tags which BTNs are to be combined in a grouping.

Airline Mileage: The distance in mileage between two Serving Wire Centers whose position is specified by industry standards.

Ameritech Centrex Service (ACS): A service provided by a SBC Affiliate.

ANI: Automatic Number Identification. A process used to identify the calling station. For example, Customers such as call centers pay for caller's telephone numbers to be sent to them simultaneously with their incoming toll free service calls.

Applicant: A person or agency requesting the utility to supply telephone service.

Area of Service: The specific area(s) from which toll free calls will be allowed on a given TFS Number as decided by the Customer subscribing to that TFS Number.

ASR: Access Service Request. Used to request the provision of special access or Switched Access as specified in the tariff of the Local Access Provider.

Authorization Level: An assigned level of calling privileges for VPN Service. Authorization Levels are assigned to private numbers when CSR features are utilized. If a caller encounters a call screening condition that restricts the caller from placing a particular call, the caller will be prompted to enter a VPN Authorization Code to override the restriction. If the Authorization Level assigned to the VPN Authorization Code is equal to or higher than the Authorization Level assigned to the private number, the call will be allowed to proceed. The caller is given three attempts to enter a valid VPN Authorization Code with the appropriate Authorization Level. If the Authorization Level is not sufficient, the call will be disconnected with an announcement after the third attempt.
