Re: Las Quintas Serenas Water Co.
Docket No. W
01583A-04-0178

Dear Sirs:

I have been a customer of Las Quintas Serenas Water Co. (f)or over thirty years and own one share of stock in the company. I object to spending \$1,600,000 to comply with the mandated water quality standards when Mr. John Gay has proposed a plan to do this for about \$1,000,000 less.

Spending the larger amount will cause more of an increase in the cost of water and will decrease the value of the stock I company.

Sincerely,

Donald K. Gill

Nature of Complaint:

Received following customer letter dated 1-26-06:

February 26, 2006

Arizona Corporation Commission
400 W. Congress, Suite 218
Tucson, AZ 85701

Subject: LAS QUINTAS SERENAS WATER CO.
Docket No. W-01583A-04-0178

We wish to protest the rate hike being request by Phelps Dodge's engineers and consultants. It is our understanding that the process Phelps Dodge's engineers what to do for 1.6 million dollars cann be done much cheaper. Mr. John Gay who has over seen Las Quintas Serenas Water Co. for many years says he can do the process for 700,000 dollars.

As far as I can see Phelps Dodge is harming our community with their high tech way of doing things. I am sure these engineers do well in operating huge mining facilities, but I do not believe that they have the best interest in mind for the small homeowners. We are a community that has had decades of faith and trust in the way Mr. John Gay and his son Steve have run the company.

We are asking for the Commissions help in this matter. And to consider that there is another water company in our area that has interest in purchasing Las Quintal Water Co. and that is Community Water Co. Mr. John Gay would be pleased to sell his L.Q.S. stock to the Community Water Co. He knows they already have arsenic treatment plants working at one of their big wells and a second is currently being installed. L.Q.S Water Co. has three employees. Community Water Co. has 15 or more employees.

We thank you for your time concerning this matter.

Nature of Complaint:

Received following post marked letter dated 2-28-06:

Re: Las Quintas Serenas Water Company, Docket No. W-01583A-04-0178 et al

Sirs:

I am a 39-year Santo Tomas Village, Sahuarita USER of water provided by the above-listed water company and am concerned about its continuing to provide me with water for my residence at a rate I can pay.

The February 26 issue of the Green Valley-Sahuarita Sun News reports that the Community Water Company of Green Valley is showing interest in buying LQS Water Co.

Local speculation is that Phelps Dodge, the major stockholder, would offer a much more costly plan of arsenic removal than Community Water Co. who is already involved in removing arsenic from their wells.

Very truly your, Jane Constantine
