Re: Docket No. W-01344A-04-0815, Tacna Water Management Company's response to Intervention as requested in Hearing On February 21, 2006 in the Matter of the Tacna Water Management Company's Application for extension of its Certificate of Convenience And Necessity.

To Whom It May Concern:

Tacna Water Management Company filed for extension of its Certificate of Convenience And Necessity in 2004. We have provided certified Public notices as required in Application instructions, and additional notices to specific companies by certified mail as per Procedural Orders (including Mohawk Utility Company). We feel due process as required by The Arizona Corporation Commissions has been met. We are on a timetable, and respectfully request that our application for extension of its Certificate of Convenience and Necessity be approved. The Arizona Corporation Commissions should not let this intervention proceed when Mohawk Utility Company is out of ADEQ compliance. If you have any questions please call me, Don Kelland, at 928-580-1799 or Steve Kelland @928-246-9121. Thank you

Sincerely,

Don Kelland
