Re: *Ten-Year Plan Filing of Allegheny Energy Supply Company, LLC*
("Allegheny") Pursuant to A.R.S. § 40-360.02

Dear Mr. Johnson:

On behalf of Allegheny, we submit this filing as its Ten-Year Plan pursuant to A.R.S. § 40-360.02. Reference is also made to your January 11, 2002 memorandum to Arizona Transmission Owners concerning this subject.

Allegheny proposes to construct an approximately 1.75 mile long, 500 kV transmission line and associated switchyards to connect its La Paz generating station to the existing Devers Palo Verde transmission line. Complete details concerning the project including maps are set forth in Allegheny's Application for a Certificate of Environmental Compatibility filed in Docket No. L-00000AA-01-0116. A draft Interconnection and System Impact Study has been introduced into evidence as Exhibit A-29 in that docket. On January 22, 2002, the Siting Committee voted to grant Allegheny a Certificate for the generating station, the transmission line and associated switchyards.

Should you have any questions concerning this filing, please contact me.

Very truly yours,

GALLAGHER & KENNEDY, P.A.
