**Re: OneLink Communications, Inc.  
Docket No. T-04089A-02-0174  
Staff Report dated May 21, 2002**

Dear Sir or Madam:

Enclosed please find a Filings Cover Sheet and the original and ten (10) copies of the **Initial Tariff** for OneLink Communications, Inc. per Staff Recommendations, dated May 21, 2002., granting authority to provide competitive resold interexchange communications services in the state of Arizona.

Due to a typographical error in the originally submitted Proposed Tariff, which indicated Peak and Off-Peak charges in Section 4.1.1 for the OneLink Premier Rate Plan of \$0.14 and \$0.30 per minute respectively, we have made a revision to Original Sheet 16, Rates, Section 4.4.1. The Peak and Off-Peak rates are now stated correctly as \$0.30 and \$0.25 per minute, respectively.

As OneLink Communications, Inc. has not yet begun sales in Arizona and anticipates a beginning sales date of June 15, 2002, we have corrected the error in the above manner. However, if this does not meet with your regulations or if you have any questions or comments, please do not hesitate to contact me at 954-724-5110.

Sincerely,

Enrique Martinez  
President

**TARIFF FORMAT SHEETS**

- A. Page Numbering** – Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Page Revision Numbers** – Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the A.C.C.. For example, the 4<sup>th</sup> revised Sheet 14 cancels the 3<sup>rd</sup> revised Sheet 14. Because of various suspension periods, deferrals, etc., the A.C.C. follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** – There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).l.
  - 2.1.1.A.1.(a).l.(i).
  - 2.1.1.A.1.(a).l.(i).(1).
- D. Check Sheets** – When a tariff filing is made with the A.C.C., an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the A.C.C.
