FROM: Debby Dobson
RE: Request for intervention

DATE: 6/11/02
TOTAL PGS: two
FAX #: 928/282-9625

Notes/Comments:

Dear Bob,

I have not been able to get to this before now. Since the next hearing is coming up in just 2 days, I decided I'd better fax this rather than mail it.

Could you please see that this gets to whomever it should? I apologize for having to ask you this favor but I have not been able to find a spare minute in the past three days.

Thank you very much for your help. I have included my phone number if you need to reach me.

Sincerely,

Debby Dobson

To whom it may concern:

Please accept this as my request that I be included as a party to the decision/s made concerning the Red Rock Water CoOp (docket # W-04052A-01-0794). I realize that the deadline has passed to file a motion to intervene. However, as I have been involved in this case since its inception over 2 years ago, I would appreciate the opportunity to contest any decision made if necessary.

My interest in this case is as a customer/ "shareholder" of the Red Rock Water CoOp and my concern over assessments levied and rate increases with no complete explanation as to why.

I believe that the Corporation Commission should regulate a company who is unwilling to provide the people it serves with financial reasons for the costs they are bearing.

I have several other concerns which I would like to have brought up as well, but, in the interest of brevity, this is the major issue.

Sincerely,

Deborah A. Dobson
