Mr. Wil Shand – Utilities Division

LOCAL EXCHANGE SERVICES

GENERAL REGULATIONS

2.10 DEFINITIONS (Cont'd)

Local Service Area - A Local Service Area is the region, comprised of one or more complete Exchange Area(s), within which a Customer can call another station at the rates and charges set forth in this Tariff.

Public Safety Answering Point (PSAP) - a communications facility operated or answered on a 24-hour basis, assigned responsibility by a public agency or county to receive 911 calls and, as appropriate, to directly dispatch emergency response services, or to transfer or relay emergency 911 calls to other public safety agencies. It is the first point of reception by a public safety agency of a 911 call, and serves the jurisdictions in which it is located and other participating jurisdictions, if any.

Rate Center - A specified geographical location used for determining mileage measurements. A list of the applicable rate centers is set forth in the AT&T Business Services Guides.

Resale - Resale is the reselling by a Customer of the Company service, facilities or equipment to others for a profit. A reseller is a Commercial Service Customer who is subject to the applicable rules and regulations of (1) the Communications Act of 1934, as amended, and the Federal Communications Commission and/or (2) the Arizona Administrative Code.

Universal Emergency Number Service - 911 - an exchange service whereby a Public Safety Answering Point (PSAP) designated by customer may receive calls dialed to the telephone number 911. The service includes facilities and equipment needed to switch and transport to the designated PSAP emergency calls originated by persons within the serving area who dial 911.

(C)
|
(C)

For purposes of the Universal Emergency Number Service - 911, the Company adopts the rates, terms and conditions contained in Qwest Corporation's Exchange and Network Services Price Cap Tariff, Section 9.2.1, Universal Emergency Number Service - 911.

(C)
|
(C)

Local Automatic Number Identification (LANI) - is a geographically significant 10-digit number that must be assigned to each customer location carrying AT&T Digital Link traffic for routing, billing and identification purposes. Where 911 service is available with Digital Link facilities, the LANI will be the telephone number of the calling party that is forwarded to the Public Safety Answering Point (PSAP). Unless it otherwise agrees, the Company will use the Customer's Main Listed Number (MLN) as the Customer's LANI.

The Customer may propose that an alternative number, other than its MLN, be used as its LANI. The Company in its sole discretion may choose to use this alternative number so long as the alternative meets all applicable legal and regulatory requirements at the time that it is proposed and at all times after it is implemented. The Company reserves the right to revert to the use of the Customer's MLN for the Customer's LANI if, at any time, the alternative number provided by the Customer is determined not to comply with applicable legal or regulatory requirements.

LOCAL EXCHANGE SERVICES

GENERAL REGULATIONS

2.11 911 SERVICE DESCRIPTIONS, EMERGENCY TELEPHONE SERVICE CHARGE,
RULES, REGULATIONS AND TERMS AND CONDITIONS

2.11.1 911 Service Descriptions

This tariff provides for Emergency Number Service (911 Service), which is an arrangement of Company Central Office and trunking facilities whereby a user who dials the telephone number "911" will reach the emergency report center for the telephone from which the number is dialed or may be routed to an operator if all lines to an emergency report center are busy. The telephone user who dials the 911 number will not be charged for the call.

The company shall provide to the PSAP only such name, address and telephone number information as the Customer shall provide to the Company, and for any 911 or E911 call, the Company shall only pass to the PSAP such information, including ALI and /or ANI data, as the Customer's facilities, network or station equipment shall make properly available to the Company's network and equipment for transmission to the PSAP.

Universal Emergency Number Service - 911 is an exchange service whereby a Public Safety Answering Point (PSAP) designated by customer may receive calls dialed to the telephone number 911. The service includes facilities and equipment needed to switch and transport to the designated PSAP emergency calls originated by persons within the serving area who dial 911.
