Re: Transmittal Letter No. 02-09

T-03574A-02-0872

Dear Mr. Johnson:

MCImetro Access Transmission Services, Inc. (MCImetro) is filing with your office one (1) original and ten (10) copies of the following changes to its Arizona Tariff No. 1:

1. To introduce Overflow Routing to its facilities based offerings; and
2. To introduce a charge for paper invoices for customers who chose to continue receiving paper invoices when E-billing has been offered to its facilities based offerings;

MCImetro respectfully requests an effective date of December 26, 2002.

Please stamp, date and return the attached duplicate of this letter in the enclosed self-addressed, stamped envelope. If you have any questions regarding this filing, please contact me at 303-390-6459.

Sincerely,

Randee Klindworth
Tariff Specialist

Arizona Corporation Commission

** NEW OR REVISED PAGE

1. Definitions (Cont'd)

Non-Recurring Charges: The one-time initial charges for services or facilities, including but not limited to charges for construction, installation, or special fees, for which the Customer becomes liable at the time the Service Order is executed.

Off-Hook: The term "off-hook" denotes the active condition of a telephone exchange service line.

On-Hook: The term "on-hook" denotes the idle condition of a telephone exchange service line.

Out-Of-Band Channel Signaling: ISDN-PRI uses one of the circuits on a DS-1 to accomplish signaling for the remaining circuits defined in the trunk group.

Overflow Routing

Where technical capabilities exist, overflow routing allows the redirection of incoming calls based on customer conditions of either "all trunks busy" or disaster-based service outages. The redirection (Overflow) will route to an alternate number designation determined by the customer. Standard simultaneous call "path" allocations are usually (1) per number. However, a customer may opt to increase their "path" quantities per number based on their ability to process simultaneous call volumes during overflow conditions. A monthly recurring charge will apply based on a "per path/per number" scenario". In addition, toll charges may be assessed if the alternate number designated by the customer is not toll free and is outside of their service address rate center.

Presubscription - 2: An arrangement whereby a Customer may select and designate to the Company an Exchange Carrier it wishes to access, without an access code, for completing intraLATA toll calls. The selected Exchange Carrier is referred to as the End User's Primary Interexchange Carrier (PIC-2).

Privacy Release: All other extensions of a line are unable to enter a conversation in progress unless the initiating telephone releases the feature.

Query Time and Date (QTD): The M5209 and M5312 Meridian Business Set's have a 48-character alphanumeric LCD. The display provides the customer with the time and date when the QTD key is pressed.

Qwest: Interchangeable with US West.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Certain material previously located on this page can now be found on page 13.1.

1. Definitions (Cont'd)

Remote Call Forwarding (RCF): RCF allows all calls dialed to a telephone number equipped for RCF service to be automatically forwarded to another dialable telephone number. This service enables a customer to list a local directory number that is forwarded to a different city or exchange. Each RCF service allows for the forwarding of one call at a given time. The RCF customer is responsible for any applicable usage rates/charges between the RCF number and the terminating number.

Conditions:

1. RCF service is not offered when the answering location for a forwarded call is a coin/coinless, Semi-public/public telephone service.
2. The Company cannot guarantee the grade of transmission on remotely forwarded calls. Normal grade end-to-end transmission is not guaranteed because transmission characteristics may vary depending on distance and routing required to complete the forwarded portion of the call.
3. RCF service will only be provided when, in the judgement of the Company, the customer subscribes to sufficient RCF facilities at the terminating (answering) location to adequately handle calls without impairing, disrupting or deteriorating any services offered by the Company. In the event that the use of RCF service causes impairment, disruption or deterioration, the Company shall have the right to discontinue the RCF service.

RCF service is required for each directory number being forwarded. A customer can request additional RCF service (call paths) provided the customer has a receiving group of lines equal to the number of RCF services requested, (i.e., directory number is forwarded to a remote group of 5 lines - the customer can have up to 5 RCF services.).

Selective Call Screening (SCS): A call processing arrangement designed to restrict certain types of billing options from a line or trunk originating a call. The service is offered to provide customers with a choice of originating call screening options when an operator services system is involved with the call processing. The Selective Call Screening service provides information to the operator services platform (mechanized or live operator) to denote special originating call handling was requested. The following billing options are available: billing as collect, bill to a third party number or billed to a calling card. The Company assumes no liability for calls completed by any other entity, carrier or operator services platform as long as the Selective Call Screening code accompanies the call sent to another entity, carrier or operator services platform. SCS Customers are responsible for all toll charges billed to their line(s) for calls that are not carried solely over MCI network and facilities. SCS is offered subject to switch availability on MCI Local Business facilities(lines and trunks).

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree on a substitute Service Commencement Date.

Certain material previously located on page 13 can now be found on this page.

2. Regulations (Cont'd)

2.5 Payment Arrangements (Cont'd)

2.5.2 Billing and Collection of Charges

Bills will be rendered monthly to Customer.

2.5.2.1 All service, installation, monthly Recurring Charges and Non-Recurring Charges are due and payable upon receipt.

2.5.2.2 The Company shall present bills for Recurring Charges monthly to the Customer, in advance of the month which service is provided.

2.5.2.3 For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

2.5.2.4 Amounts not paid within 30 days after the date of invoice are considered past due.

2.5.2.5 A \$10.00 charge will be assessed for checks with insufficient funds or non-existing accounts.

2.5.2.6 Paper Invoices: For business customers who receive notification that invoicing will change to E-billing and who do not elect to use E-Billing, but continue to receive paper invoices, the following monthly recurring charge will apply per invoice based on the number of sheets in the paper invoice: 1-55 sheets of paper will be \$5.00. 56 or more sheets of paper will be \$25.00.

3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)

3.1.3 Local Trunk: Local Trunk(s) provide Customer with voice-grade communication channel(s) to the Customer-provided wiring to the Customer's Private Branch Exchange (PBX) or Hybrid Key System. Local Trunks can be provisioned as either analog or digital and will be provided in the following manner:

3.1.3.1 Local Trunk-Basic: Local Trunk- Basic can be used to carry one-way outbound traffic, one-way inbound or two-way traffic. The calling options described in Section 3.1.2 will be available to Local Trunk-Basic customers.

3.1.3.1.1 One-Way Outbound: Provides the Customer with a single analog or digital connection which is restricted to carry outbound traffic only.

3.1.3.1.2 One-Way Inbound or Two-Way: Provides the Customer with a single analog or digital connection which can carry one-way inbound or two-way traffic.

3.1.3.1.2.1 Features: The following features are available:

Standard

Calling Number Delivery Blocking (Selective)

Touchtone

Hunting (Circular, Sequential and Uniform Call Distribution)

Optional

Vanity Number

Interim Local Number Portability (ILNP)

Selective Call Screening

Calling Number Delivery Blocking (Complete)

Remote Call Forwarding

Overflow Routing

Interim Local Number Portability (ILNP) (Rates for a volume of numbers greater than 500 will be provided on an Individual Case Basis.)	\$5.00
Selective Call Screening	\$20.00
Calling Number Delivery Blocking (Complete)	\$16.00
Remote Call Forwarding	\$20.00
Overflow Routing	\$40.00

N

3.1.3.1.4.3 Usage Rates: The rates in section 3.1.8 will apply.

¹ Effective March 1, 2001, this option will no longer be available to new subscribers.

3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)

3.1.3 Local Trunk (Cont'd)

3.1.3.2 Local Trunk - Direct Inward Dialing (DID): Provides the Customer with a single analog¹ or digital connection which can carry one-way, inbound traffic.

3.1.3.2.1 Direct Inward Dialing Numbers: Telephone numbers can be obtained in blocks of 20 numbers. Additional monthly charges will apply, as specified in Section 3.1.3.2.2.1.

3.1.3.2.1.1 Features:

Standard:

Touchtone
Hunting (Circular, Sequential and Uniform Call Distribution)

Optional:

Interim Local Number Portability (ILNP)
Vanity Number
Remote Call Forwarding
Overflow Routing

N

3.1.3.2.2 Direct Inward Dialing Rates and Charges: A Customer who orders a Local Trunk - DID trunk will be charged applicable Non-Recurring Charges and monthly Recurring Charges as specified in Sections 3.1.3.2.2.1 and 3.1.3.2.2.2.

High Capacity Inbound Service: A High Capacity Inbound Line or Trunk is any inbound line or trunk for which, during any monthly billing period and at any location or individual building address of a customer, the following two conditions are met: 1) more than 70 percent of the traffic carried is inbound local; and 2) the average off-hook time per call is more than ten minutes. Monthly charges shall apply to each High Capacity Inbound Line or Trunk used by the Customer. These charges are in lieu of other monthly recurring local line, Local Trunk-Basic (Per Call/Per Minute and Flat Rate Options) and Local Trunk-DID and are in addition to non-recurring and per minute usage charges specified elsewhere in this tariff

¹ Effective April 1, 2001, analog DID will no longer be available to new subscribers.

3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)
