Sirs:

As home owners in Sun City (10226 W. Palmer Dr., ) we find it hard to understand how it is possible that the former Home Owners association president; now chairman of the Sun City Recreation Association: can sign an agreement for millions of dollars, in view of the fact that his limit of expenditure is set at \$50K. The SCRA board apparently held a meeting during which they agreed to a non-binding agreement, on the strength of which Mr. Brisco signed all of our rights over to Citizen Water, now American Water.

Not only would we like to have the opportunity to attend a presentation by the Arizona Corporation Commission on the Water supply situation, and proposals; as well as an opportunity to cast our votes, but to do so at a time when we, as many others, are in Sun City. Which is between November and April.

It seems to us rather underhanded, for this whole mess about the water supply to surface at this time, when a large number of Sun City residents, have already left or are about to leave. Mr. Brisco committed us to pay for this proposed Pipeline, which could easy 10 fold our water bills, for the next 15 years, while our ground water is being sold from under us to the surrounding developments. Meanwhile the profit is going into the coffers of the Water pumping corporation. We are to have no say in all of this ???------surely the Arizona Corporation Commission, has the power to rectify this injustice.-----

There is no question we have been saturated by Citizen Water's side of the issue; we have been amply flooded by the Home owner association's side: we are all but drowning in questionable newspaper reports, and the SCRA is irrigating us with prospects of water shortages! In view of the fact that the aquifer has been on the rise since it's low in 1956, makes one believe the truth of the matter is floating far from all the negotiating parties We would like to hear from the Arizona Corporation Commission, who after all represent and guard the facts in the most impartial way.

Arizona Corporation Commission  
DOCKETED

May we thank you for considering our brief

Sincerely Yours

April 27, 2001
