Dear Mr. Hatch-Miller:

It has recently been brought to my attention that your commission is "dragging its feet" in allowing Pinnacle West to increase their consumer rates. As a result, Pinnacle West Credit Rating is now in the JUNK BOND category.

I have found in my daily living that everything has increased in price, mostly as a result of the price of crude oil having sky rocketed, as well as Greed on the part of many entrepreneurs.

Pinnacle West is an old, established corporation in the State of Arizona. It has not been known for price gouging. It is not trying to do so now.

If Pinnacle West is not allowed to make a profit in order to pay off their indebtedness, they will not be able to pay any sort of dividend to their investors. Many of their investors are senior citizens who try to supplement their Social Security Income with the dividends that they receive from being minor share holders in the corporation. I am one of these minor senior share holders.

Please put this needed increase at the top of your priority list and influence the other members of your committee to follow suit.

Thank you for your kind attention to my request.

Sincerely

ARLEIN TOTH
