Re: Gold Canyon Sewer Corp. proposed rate increase

Dear Mr. Hatch-Miller:

We live at Mountain Brook Village in Gold Canyon, Arizona. Mountain Brook Village is a senior community, over age 55, meaning a great many of the residents here are on "fixed" incomes.

We have heard that the Gold Canyon Sewer Corp. is proposing a rate increase of over 100%. This amount seems absurd considering the fact that our homes have only one or two residents living in them and a majority are not occupied year-round. To pay over \$70.00 per month, all year, for sewer when you may be occupying your home only 4 to 6 months of the year is an outrage! Also, the sewer site, which is very close to our homes continues to be a "smelly" problem for our community despite the amount of work and money that has gone into it to try and improve it.

Please look into this outrageous proposal. There must be another way to defray increased costs without doubling the current rates of customers who use the sewer system the least.

Sincerely,

Herb C. Kitchener
