2 No 2003-004, Decision and Order No. 26-400665, dated August 12, 2003, confirming the  
3 availability of 52,250 Acre Feet of water. That is sufficient to serve in excess of 150,000  
4 customers.

5           4.       The Staff Report recommends denial of the Tariff Amendment attached to the  
6 Amended Application and Request for Tariff Approval, dated November 7, 2005. Please recall  
7 that this Docket was originally consolidated with Diversified Water Company ("Diversified")  
8 Docket No. W-02859A-04-0844, which was subsequently bifurcated by the Administrative Law  
9 Judge in Procedural Order dated December 13, 2005.

10          5.       Johnson was granted the Wastewater CC&N to serve the area in both dockets  
11 pursuant to Decision No 64062 dated October 4, 2001, and includes substantial additional area  
12 within Diversified's CC&N. Johnson and Diversified agreed in the Joint Settlement Statement  
13 that was docketed in the consolidated proceeding and referenced in the Staff Report, that each  
14 would file respective tariffs designed to assist in collection of Johnson's wastewater only  
15 customers monthly billings for services provided by Johnson in Diversified's water CC&N.  
16 Those Tariffs were appended to the Joint Settlement Statement.

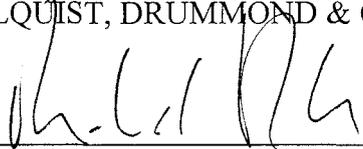

17          6.       Johnson is of the opinion that Diversified has filed that companion Tariff with the  
18 Commission.

19          7.       The Company is of the further opinion that it is appropriate that those Tariffs,  
20 which refer to the other company's companion Tariff in their respective Tariffs, should be  
21 approved by the Commission in this Docket to assure a timely effective date of those Tariff.  
22  
23

1           WHEREFORE, the Company respectfully requests that the Decision in this Docket  
2 acknowledge the docketing of the Staff's recommended compliance items, and further requests  
3 that the Commission approve the Tariffs as discussed above.

AWS No. 2003-004

DECISION AND ORDER

No. 26-400665

7  
8 On December 26, 2001, the Department of Water Resources (Department) received an  
9 application from Johnson Utilities, L.L.C. requesting that the Department modify Johnson Utilities'  
10 designation of assured water supply pursuant to A.R.S. § 45-576(D) and A.A.C. R12-15-701 *et seq.* for  
11 Johnson Utilities' municipal water delivery system. On January 28, 2003, the Department determined the  
12 application to be complete.

13 After receiving Johnson Utilities' request to modify its designation of assured water supply, and  
14 after reviewing relevant information regarding the modification request, including: 1) the hydrologic study  
15 of the proposed source of supply on file with the Department, 2) information submitted regarding Johnson  
16 Utilities' consistency with the management plan and management goal, 3) information provided by the  
17 Arizona Department of Environmental Quality regarding the quality of the proposed source of water, and  
18 4) information regarding Johnson Utilities' financial capability to construct the necessary delivery system,  
19 treatment works and storage facilities, the Department finds the following:

- 20 1. Johnson Utilities is a private water company regulated by the Arizona Corporation  
21 Commission.
- 22 2. Johnson Utilities has the legal authority, as granted by the Arizona Corporation  
23 Commission, to deliver water to its customers located within the boundaries of its  
24 Certificate of Convenience and Necessity as indicated on maps on file with the  
25 Department.
- 26 3. Johnson Utilities has the right to withdraw and deliver groundwater to its customers  
27 pursuant to service area right #56-002346.0000.
- 28 4. Johnson Utilities currently serves 100 percent groundwater to its customers.
5. Johnson Utilities' current and committed demand is 1,232 acre-feet per year, as of 2003.

6. Johnson Utilities' groundwater supply proven to be physically available is 52,250 acre-feet per year.
7. Johnson Utilities' total groundwater supply which was proven to be physically, continuously and legally available is 18,154 acre-feet per year, which is greater than Johnson Utilities' projected demand for the calendar year 2011 of approximately 5,633 acre-feet per year.
8. Historic hydrologic information demonstrates that groundwater levels in the service area currently range from approximately 300 to 700 feet with a minimal regional decline.
9. After one hundred years of pumping at 5,633 acre-feet per year, the depth-to-water inside Johnson Utilities' service area is expected to range from 400 to 550 feet below land surface and not expected to exceed 1,000 feet below land surface.
10. Johnson Utilities is regulated as a large provider under the Department's Third Management Plan for the Phoenix Active Management Area. Johnson Utilities is in compliance with the Third Management Plan requirements as of the date of this decision and order.
11. The groundwater supply that Johnson Utilities intends to provide its customers currently meets all federal and state water quality standards, based on compliance information provided by the Arizona Department of Environmental Quality.
12. On June 9, 2000 Johnson Utilities became a member service area of the Central Arizona Groundwater Replenishment District ("CAGRDR").
13. The June 9, 2000 replenishment agreement between Johnson Utilities and the CAGRDR limits the replenishment obligation of the CAGRDR to 5,967 acre-feet per year, which is more than Johnson Utilities projected 2011 demand of 5,633 acre-feet per year.
14. On February 24, 1995, the Director designated that the CAGRDR Plan of Operation was consistent with achieving the management goal of the Phoenix Active Management Area.
15. As of the date of this decision and order, the CAGRDR is in compliance with its groundwater replenishment obligation for the Phoenix Active Management Area.
16. In accordance with Arizona Corporation Commission Rules and Regulations, Johnson Utilities finances extension of its distribution system through line extension agreements

1 with owners of new developments. Any owner of a new subdivision served by Johnson  
2 Utilities must prove financial capability to construct the necessary water infrastructure to  
3 the appropriate platting entity and the Arizona Department of Real Estate pursuant to  
4 Titles 9, 11, and 32 of the Arizona Revised Statutes.

5 **Having reviewed the Findings of Fact, the Department makes the following**

6 **Conclusions of Law:**

- 7 1. The annual volume of water was found to be physically, continuously and legally available  
8 to Johnson Utilities for a minimum of 100 years as prescribed in A.A.C. R12-15-703, and  
9 exceeds Johnson Utilities' projected demand of 5,633 acre-feet for the year 2011.
- 10 2. The water supply served by Johnson Utilities currently meets the water quality  
11 requirements specified in A.A.C. R12-15-704.
- 12 3. Pursuant to A.R.S. § 45-576.01(B), 5,967 acre-feet of Johnson Utilities projected use of  
13 groundwater, as a member service area of the CAGR, is consistent with achieving the  
14 management goal of the Phoenix Active Management Area.
- 15 4. In accordance with A.A.C. R12-15-706, Johnson Utilities proposed use of water is  
16 consistent with the Phoenix Active Management Area Third Management Plan  
17 requirements.
- 18 5. Johnson Utilities satisfies the financial capability criteria prescribed in A.A.C. R12-15-707.
- 19 6. Johnson Utilities satisfied all the requirements for a designation of an assured water  
20 supply.

21 **Having reviewed the Conclusions of Law, the Department hereby issues this Order**  
22 **designating Johnson Utilities as having an assured water supply, subject to the following**  
23 **conditions:**

- 24 1. The Department reserves the right under A.A.C. R12-15-709 (A) to periodically review  
25 and modify this designation as conditions warrant.
- 26 2. Pursuant to A.A.C. R12-15-709, the Department may, at any time, review, modify or  
27 revoke this designation if the findings of fact or the conclusions of law upon which the  
28 designation are based change or are invalid.
