DATE PREPARED: March 30, 2006

DOCKET NO: E-01345A-05-0373

OPEN MEETING DATES: April 4 and 5, 2006

AGENDA ITEM: U-3

Page 3, line 11 STRIKE “, except for off-grid systems”

Page 3, STRIKE lines 20 through 25 INSERT:

“15. This option is available to both residents and businesses in APS’ service territory that are not connected to the electric grid and want to use solar energy to provide their electric power. APS also offers this option to residents and businesses outside of APS’ service territory that are not connected to the grid, if permission from the utility adjoining APS’ service territory is obtained. The participant receives a one-time EPS credit purchase payment of \$2.00 per watt-DC for the installation of an off-grid photovoltaic system, up to a maximum size of 5 kW.

16. The Off-grid Photovoltaic option offers obvious benefits to residents and businesses, either in or outside APS’ service territory, who are not grid-connected and who want to have solar electric power. However, we find that it is unfair to APS customers for APS to subsidize photovoltaic systems purchased by non-APS customers using funds collected from APS customers through the EPS surcharge. Therefore, we will not approve the Off-grid Photovoltaic Systems option.”

Renumber to conform
