RE: Sun Cities CAP pipeline Plan

Dear Commissioners,

Your delay in approving the CAP pipeline is most distressing to me and to a great

number of my friends in Sun City West, AZ.

This plan to use CAP water for irrigation purposes in the Sun Cities area, thus decreasing the usage of precious groundwater, has been presented to you Commissioners years ago yet you have failed to take any action.

The actions of a richly endowed group known as SCTA appears to be controlling the

Arizona Corporation Commission in spite of the fact that the Courts do not agree

with their stand that a recharge facility 7 miles away will be beneficial to our aquifer.

The continued subsidence of the ground in the Sun Cities area dictates that it is time

for you people to stand up and say something remedial must be done at once.

Decreasing the removal of groundwater is the ONLY solution to the immediate problem.

Recharging may be beneficial in fifty to one hundred years, if then.

Please say ENOUGH! to those who have hindered a great water plan from being implemented and VOTE in favor of bringing CAP water to the Sun Cities as an overwhelming majority of Residents are in favor of.

Sincerely

William C. Hafeman, 22120 Golf Club Dr., Sun City West, AZ 85375
