Subject: Sun Cities CAP Pipeline Plan

ORIGINAL

Dear Commissioners:

It is most upsetting to us, as residents of Sun City West, to read there will be another delay in aproving the CAP pipeline which was to help decrease the pumping of groundwater in our area. This plan to use CAP water for irrigation has been before the commission for years, and yet there is still no decision. It is obvious to us that we must curtail pumping as soon as possible. Putting water into a recharge facility seven miles away does not accomplish that end, nor is there any guarantee the recharged water will replenish the Sun Citiies acquifer any time soon. There is also the issue of subsidence which is threatening our community. Now I read that ADWR is also in strong support of the pipeline option over any other. Why wait?

Please vote in favor of the pipeline plan as soon as possible so construction can begin before building the pipeline becomes even more expensive. Thank you for your time and hopefully my input is not too untimely.

Sincerely,

ROBERT W. & GAIL A. CARLSON
