Telegenius, Inc.  
Docket No. T-04029A-01-0515

Applicant has not commenced operations in the State of Arizona and has not operated in Arizona less than twelve (12) months.

- 1) Provide the projected total revenue for the first twelve months to provide telecommunications service to Arizona customers by the Applicant following certification, adjusted to reflect the maximum rates that the Applicant has requested in its tariff. This adjusted total revenue figure could be calculated as the number of units sold for all services offered times the maximum charge per unit.

**The projected total revenue for the first twelve months is will be \$125,000.00**

- 2) Provide the projected **operating expenses** for the first twelve months to provide telecommunications service to Arizona customers by the Applicant following certification.

**The projected operating expenses for the first twelve months will be \$115,000.00**

- 3) Provide the book value (original cost less accumulated depreciation) of **all Arizona jurisdictional assets** projected to be providing telecommunications service to Arizona customers at the end of the first twelve months of operation. If the projected fair value of those assets is different than the projected original cost net book value, also provide the corresponding projected fair value amounts. Assets are not limited to plant and equipment. Items such as office equipment and office supplies should be included in this list. If the projected value of all assets is zero, please specially state this in your response.

**Applicant will not have any jurisdictional assets in the State of Arizona at the end of the first twelve months of operation. Therefore, the projected fair value of all of Applicant's assets in the State of Arizona will be zero.**
