Re: Arizona Water Company Application to Extend CC&N, Docket No. 06-0199  
Water and Wastewater Services Southeast of the City of Maricopa

To Whom It May Concern:

KEJE Group, LLC is the owner of approximately 80 acres of land located southeast of the City of Maricopa more specifically identified as APN 501-15-014B and located at the NEC of Porter Rd and Selma Highway. KEJE Group, LLC has invested considerable sums of money to acquire, plan and develop this land. As a private property owner, we have the right to choose who we want to do business with in the pursuit of water and wastewater services for our land. We have already chosen Global Water's Utilities, Santa Cruz Water Company and Palo Verde Utilities Company, to provide this service. This choice was deliberate and based on Global's ability to provide both water and wastewater services, their financial capability to deliver the service, their environmental leadership in our community and their proven track record.

Arizona Water Company has never contacted us about their recent application. They have a long history of fighting with local governments and battling with developers. By contrast, Global Water has made great efforts to cooperate with local governments and provide developer friendly solutions.

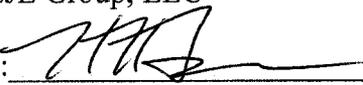

The great level of growth in Pinal County requires that water and wastewater be integrated into a seamless resource. This integration allows for the use of reclaimed water to offset the use of potable water and protect a valuable resource. It also makes the process easier on developers and local governments.

Again, Arizona Water Company has never contacted us about their application and we do not support it in anyway. Our clear and only choice to serve our land is Global Water's Utilities, Santa Cruz Water Company and Palo Verde Utilities Company. Based on the significant investment in this property and the upcoming entitlements we are processing, please recognize the urgency in denying Arizona Water's request.

If you need any further details please contact my at the number listed above.

Sincerely,

KEJE Group, LLC
