Subject: Electric Rate Increase

In my lifetime I have owned two businesses and every time we made dumb decisions we had live with them. This increase of 22% in electric rates is insane. We have a sewer going into Lake Havasu which is costing the residents a half billion dollars which we have to pay for, to keep your water clean in Phoenix. Along with that is an increase of 19% in my Mohave County property taxes to pay for 5 week vacations after 1 year of employment of county employees. I am extremely against this increase. I sometimes feel like I'm being forced out of Lake Havasu, Mohave County and Arizona. It's just getting too expensive to live here!

Please vote no!!!!
Thank you,
Robert M. Radu

Subject: Fw: Fw: ELECTRIC RATE INCREASE

Sirs, This is a chance to show that you are truly an independent commission appointed to serve the interest of the people. An increase in electric rates of the magnitude proposed could have a severe impact on the economy of our state not to mention the impact on all the individuals who in this climate are dependent on electric A/C. Ask yourself why should mismanaged company be rewarded by a bale out? My company would not be if I mismanaged it so badly!! DENY THE RATE INCREASE!!!!!!!!!!!!

Subject: No to 22% Citizens Utilities Rate Hike

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of CitizensÆ Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of CitizensÆ Arizona Electric and Gas Divisions by Unisource Energy Corporation; CitizensÆ Electric DivisionÆs request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for CitizensÆ Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayerÆs were not involved in the poor decisions made by CitizensÆ management team and therefore, CitizensÆ shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by CitizensÆ management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely,

Stephanie/Steve Faller
