PUBLIC SERVICE COMPANY OF NEW MEXICO

TEN-YEAR PLAN

2006 TO 2015

This report is submitted pursuant to Arizona Revised Statutes, Section 40-360.02, relating to power plant and transmission line siting requirements.

PNM presently has no definitive plans to construct new generating plants in Arizona. However, PNM is continually assessing power marketing opportunities and/or projects that may ultimately result in construction of new generation should such opportunities/projects come to fruition. If PNM decides to develop a new power plant in Arizona, or to purchase an interest in a power plant under development in Arizona, PNM will file a timely plan with the Commission to the extent required by subsection B of Section 40-360.02.

PNM presently has no transmission projects to report to the Arizona Corporation Commission.
