RECEIVED

Dear Mr. Peterson,

I have been attempting unsuccessfully to acquire 43 meters from the Pine Water Co. (PWCo.) for new condos in the Eagle Glen subdivision locate on Hardscrabble Road in Pine Arizona. I have a history of petitioning Mr. Hardcastle, President of Brooke Utilities, for meter service dating back to 1996 and I have now received a letter (dated May 16, 2006) from him stating that the Pine Water Co. cannot provide water for my request due to the Arizona Corporation Commission (ACC) decision No. 67823.

Mr. Hardcastle states that the Eagle Glen development would need a new water main extension. This is not the case. All water piping needs, including water main considerations, were put in place in 1985 when the total Eagle Glen project was approved by Gila County. This build out expense was done at no cost to the Pine Water Co. with the understanding that water service would be supplied upon request as the condos were completed.

Mr. Peterson, now that PWCo. is no longer able to fulfill their contract under the Certificate of Convenience & Necessity (CC&N) granted by the ACC to "provide water", I would like to open a dialog with you to investigate the possibility of purchasing water service from the SHDWID for my Eagle Glen condos.

Thank you for your consideration.
