When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Sheets 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).l.
- 2.1.1.A.1.(a).l.(i).
- 2.1.1.A.1.(a).l.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision, all revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

- 2.3.6. The failure to give notice of default, to enforce or insist upon compliance with any of the terms or conditions herein, the waiver of any term or conditions herein, or the granting of an extension of time for performance by the Company or the Customer shall not constitute the permanent waiver of any term or condition herein. If, based on a Service order by a Customer, any construction has either begun or been completed, but no Services provided, the nonrecoverable costs of such construction shall be borne by the Customer.

2.4.2. Upon thirty (30) days' prior written notice, either Customer or Company shall have the right, without cancellation charge or other liability, to cancel the affected portion of the Service, if the Company is prohibited by governmental authority from furnishing said portion, or if any material rate or term contained herein and relevant to the affected Service is substantially changed by order of the highest court of competent jurisdiction to which the matter is appeal, the Federal Communications Commission, or other local, state or federal government authority.

2.5. Cancellation for Cause by the Company

2.5.1. Upon nonpayment of any sum owing to the Company, or upon a violation of any of the provisions governing the furnishing of Service under this Tariff, the Company may, upon five business days written notification to the Customer, except in extreme cases, without incurring any liability, immediately discontinue the furnishing of such Service. The written notice may be separate and apart from the regular monthly bill for service. Customers will be assessed a late fee on past due amounts in the amount not to exceed the maximum lawful rate under applicable state law. If a Customer presents an undue risk of nonpayment at any time, the Company may require that Customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash.
- 2.8.3. In determining whether a Customer presents an undue risk of nonpayment, the Company shall consider the following factors: (A) the Customer's payment history (if any) with the Company and its affiliates, (B) Customer's ability to demonstrate adequate ability to pay for the Service, (C) credit and related information provided by Customer, lawfully obtained from third parties or publicly available, and (D) information relating to Customer's management, owners and affiliates (if any).

- 2.10.3. If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.
- 2.10.4. When utility or telecommunications assessments, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate or intrastate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate or intrastate access charges, the amounts of such taxes or fees will be billed to Customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each Customer's bill is determined by the interstate or intrastate telecommunications service provided to and billed to an end user/customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.
- 2.10.5. When any municipality, or other political subdivision, local agency of government, or department of public utilities imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's Customers receiving service within the territorial limits of such municipality, other political subdivision, local agency of government, or public utility commission.

2.11. Method for Calculation of Airline Mileage

- 2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 in accordance with the following formula:

$$\text{the square root of: } \frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:		<u>V</u>	<u>H</u>
	City 1	5004	1406
	City 2	5987	3424

$$\text{the square root of: } \frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

2.12. Time of Day Rate Periods

- 2.12.1. Time of Day Rate Periods are determined by the time of day at the location of the Calling Station.

The rates shown in Section 4 apply as follows:
