RE: IN THE MATTER OF THE APPLICATION OF ARIZONA-AMERICAN WATER COMPANY, AN ARIZONA CORPORATION, FOR AUTHORITY TO IMPLEMENT AN ARSENIC COST RECOVERY MECHANISM FOR ITS HAVASU WATER DISTRICT (DOCKET NOS. W-01303A-05-0280, WS-01303A-02-0867, WS-01303A-02-0869, AND WS-01303A-02-0870)

Introduction

On April 4, 2006, Arizona American Water Company ("Company" or "Applicant") filed an application with the Arizona Corporation Commission ("Commission") requesting authorization to implement Step One of the Arsenic Cost Recovery Mechanism ("ACRM") authorized under Decision No. 68310, dated November 14, 2005.

The average residential customer bill would increase by approximately \$12.30 from \$25.53 to \$37.83 (48.2 percent) under the Company's proposed Step One filing.

Background

On January 23, 2001, the Environmental Protection Agency ("EPA") reduced the drinking water maximum contaminant level of arsenic from 50 parts per billion ("ppb") to 10 ppb. All community water systems and non-transient non-community water systems needed to comply with the new federal rule by the January 23, 2006 deadline.

On November 22 and December 13, 2002, the Company filed applications with the Commission for fair value determinations of its utility plant and for permanent rate increases for five of its districts (Sun City West Water and Wastewater, Sun City Water and Wastewater, Havasu and Mohave Water, Agua Fria Water and Wastewater, and Tubac Water). On June 30, 2004, the Commission issued Decision No. 67093 establishing permanent rates for these five districts.

On February 15, 2005, the Commission issued Decision No. 67593 granting the Company's request to reopen the record in Decision No. 67093 for the limited purpose of serving as evidentiary basis for future ACRM filings for the affected Arizona-American water districts.

By Procedural Order issued March 29, 2005, Arizona-American was directed to file a new application indicating the relief sought regarding the ACRM, and to consolidate the new

application with those existing dockets from Decision No. 67093 that would be affected by the specific relief request in its filing.

On April 15, 2005, the Company filed the above captioned application (Docket No. W-01303A-05-0280) for authority to implement ACRMs for its Agua Fria Water, Sun City West Water, Havasu Water, and Tubac Water Districts.

On May 4, 2005, the Company filed a Motion to Delete the Tubac Water District from its application.

By Procedural Order issued May 6, 2005, the Company's request to delete the Tubac Water District from its application was approved.

On November 14, 2005, the Commission issued Decision No. 68310 granting Arizona-American Water Company's application for authority to implement an Arsenic Cost Recovery Mechanism and a Havasu District Arsenic Impact Fee Tariff subject to the terms and conditions contained in that Decision.

On April 4, 2006, Arizona-American Water Company, Inc. filed an application with the Commission requesting authorization to implement Step One of the ACRM.

Decision No. 68310

Decision No. 68310 conditioned approval of an ACRM surcharge on the following criteria:

1. Arizona-American shall comply with all requirements discussed in this Order as a condition of approval of the Arsenic Cost Recovery Mechanism.
2. Arizona-American shall file a plan with Docket Control by December 31, 2005 that describes how the Company expects to attain and maintain a capital structure (equity, long-term debt, and short-term debt) with equity representing between 40 and 60 percent of total capital.
3. Arizona-American shall file, by April 1st of each year subsequent to any year in which it collects surcharges under an ACRM, a report with the Utilities Division Director showing the Company's ending capital structure by month for the prior year.
4. Arizona-American shall modify the rate base calculation for the Havasu Water District to explicitly show a deduction for Arsenic Impact Fee collections.
5. That as part of the Earnings Test schedule filed in support of the ACRM, Arizona-American shall incorporate adjustments conforming to Decision No. 67093.

6. Arizona-American shall file the schedules discussed in its application, as modified by Staff's recommendations herein. Microsoft Excel or compatible electronic versions of the filings and all work papers should be filed concurrently with all ACRM filings.
7. Arizona-American shall file permanent rate applications for its Sun City West, Agua Fria, and Havasu districts by no later than April 30, 2008, based on a 2007 test year.
8. For the Havasu District, Arizona-American shall file with Docket Control by January 31st of each year, an annual calendar year status report, until the AIF Tariff is no longer in effect. The status report shall contain a list of all customers that have paid the AIF, the amount each customer has paid, the amount of money spent from the AIF, and a list of all facilities that have been installed with funds from the AIF Tariff.
9. Arizona-American shall file the schedules and information described above, as well as any additional relevant data requested by Staff, as part of any request for an Arsenic Cost Recovery Mechanism step increase.
10. Staff and the Company open a new proceeding to examine other forms of mitigation of the ACRM for the Havasu system, including the use of hook-up fees for adjacent systems due to the Commission's concern about the impact on the bills of customers served by the Havasu system from the implementation of the ACRM.

Decision No. 68310 Compliance

Staff performed an examination of the ACRM filing and concluded that it conforms to the requirements specified in Decision No. 68310.

The Applicant's ACRM filing includes the following schedules that conform to the methodologies required by Decision No. 66400 and adopted by Decision No. 68310.

1. Balance Sheet – dated December 31, 2005
2. Income Statement – period ending December 31, 2005.
3. Income Statement Adjustments (Earnings Test) – to conform to Decision No. 67093.
4. Rate Review – a rate review filing for the Havasu Water District.
5. Arsenic Revenue Requirement – an arsenic revenue requirement calculation for Step One.

6. Surcharge Calculation – a detailed surcharge calculation.
7. Rate Base – a schedule showing the elements and the calculation of the rate base, including the deduction for Arsenic Impact Fee Contributions dated April 1, 2006.
8. Construction Work In Progress (“CWIP”) Ledger – a ledger showing the construction work in progress account.
9. 4-Factor Allocation for December 2005 – a schedule showing the allocation factors for all of the Arizona-American Districts.
10. Typical Bill Analysis – ACRM Step-1 – A typical bill analysis showing the effects on residential customers at various consumption levels including the Average Residential use of 10,140 gallons.

The ACRM schedules provide a basis for the calculation of a surcharge based on financial records and an Earnings Test Schedule that limit the ACRM surcharge to a rate that would not result in a rate of return exceeding that authorized in Decision No. 67093.

The Applicant filed a plan with Docket Control, on November 30, 2005, that describes how it expects to attain and maintain a capital structure (equity, long-term debt, and short-term debt) with equity representing between 40 and 60 percent of total capital.

The Applicant docketed its annual AIF compliance report, on February 2, 2006, for the Havasu District containing a list of all customers that have paid the AIF, the amount each customer has paid, the amount of money spent from the AIF, and a list of all facilities that have been installed with funds from the AIF Tariff.

Docket No. W-01303A-05-0890 is addressing potential forms of mitigation for the Commission’s concern about the impact on the bills of customers served by the Havasu system from the implementation of the ACRM.

Staff Adjustments to Applicant Schedules

Staff adjusted the calculation of the debt and equity rates applied to the CWIP Ledger to conform with Decision No. 67093. The adjustment reduced Arsenic Treatment Plant by \$26,968. The Applicant’s other schedules required conforming changes.

Staff’s adjustment reduced the ACRM revenue requirement by \$3,782 from \$272,294 to \$268,512.

Staff’s adjustment results in a monthly minimum surcharge of \$5.76 and commodity surcharge of \$0.6453 per 1,000 gallons.

Staff's adjustment reduced the average monthly residential customer bill by \$0.18 from \$38.01 to \$37.83.

Conclusion and Recommendations

Staff concludes that the Company's Step-One ACRM filing for its Havasu Water District, as adjusted, is complete and in accordance with Decision No. 68310.

Staff recommends that the Company file, with Docket Control as a compliance item, an arsenic removal surcharge tariff consistent with ACRM Schedule DRR-1.

Staff recommends that the third condition listed for Decision No. 68310 be modified such that the Company file, by April 1st of each year subsequent to any year in which it collects surcharges under an ACRM, a report with Docket Control (instead of the Utilities Division Director) as a compliance item showing the Company's ending capital structure by month for the prior year.

Staff recommends that Arizona-American Havasu Water District notify its customers of the arsenic cost recovery surcharge tariff approved herein within 30 days of the effective date of this Decision.

Staff recommends that in the event that the Applicant fails to file a permanent rate application for its Havasu Water system by April 30, 2008 based on a 2007 test year as required by Decision No. 66310, the Arsenic Cost Recovery Mechanism surcharge then in place shall be automatically discontinued.

DECISION NO. _____

ORDER

Open Meeting
May 31-June 1, 2006
Phoenix, Arizona

BY THE COMMISSION:

INTRODUCTION

Pursuant to Decision No. 68310, Arizona American Water Company (“Company”, “Applicant” or “Arizona-American”) filed an application on April 4, 2006, with the Arizona Corporation Commission (“Commission”) requesting authorization to implement Step One of the Arsenic Cost Recovery Mechanism (“ACRM”). The average residential customer bill will increase by approximately \$12.48 from \$25.53 to \$38.01 (48.9 percent).

On January 23, 2001, the Environmental Protection Agency (“EPA”) reduced the drinking water maximum contaminant level of arsenic from 50 parts per billion (“ppb”) to 10 ppb. All community water systems and non-transient non-community water systems needed to comply with the new federal rule by the January 23, 2006 deadline.

On November 22 and December 13, 2002, the Company filed applications with the Commission for fair value determinations of its utility plant and for permanent rate increases for five of its districts (Sun City West Water and Wastewater, Sun City Water and Wastewater,

1 Havasu and Mohave Water, Agua Fria Water and Wastewater, and Tubac Water). On June 30,
2 2004, the Commission issued Decision No. 67093 establishing permanent rate increases for these
3 five districts.

4 On February 15, 2005, the Commission issued Decision No. 67593 granting the
5 Company's request to reopen the record in Decision No. 67093 for the limited purpose of serving
6 as evidentiary basis for future ACRM filings for the affected Arizona-American water districts.

7 By Procedural Order issued March 29, 2005, Arizona-American was directed to file a new
8 application indicating the relief sought regarding the ACRM, and to consolidate the new
9 application with those existing dockets from Decision No. 67093 that would be affected by the
10 specific relief request in its filing.

11 On April 15, 2005, the Company filed the above captioned application (Docket No.
12 W-01303A-05-0280) for authority to implement ACRMs for its Agua Fria Water, Sun City West
13 Water, Havasu Water, and Tubac Water Districts.

14 On May 4, 2005, the Company filed a Motion to Delete the Tubac Water District from its
15 application.

16 By Procedural Order issued May 6, 2005, the Company's request to delete the Tubac Water
17 District from its application was approved.

18 On November 14, 2005, the Commission issued Decision No. 68310 granting Arizona-
19 American Water Company's application for authority to implement an Arsenic Cost Recovery
20 Mechanism and a Havasu District Arsenic Impact Fee Tariff subject to the terms and conditions
21 contained in the Decision.

22
23 **Requirements of Decision No. 68310 for approval of the Arsenic Cost Recovery Mechanism**

- 24 1. Arizona-American shall comply with all requirements discussed in this Order as a
25 condition of approval of the Arsenic Cost Recovery Mechanism.
- 26 2. Arizona-American shall file a plan with Docket Control by December 31, 2005, that
27 describes how the Company expects to attain and maintain a capital structure (equity,
28 long-term debt, and short-term debt) with equity representing between 40 and 60
percent of total capital.

3. Arizona-American shall file, by April 1st of each year subsequent to any year in which it collects surcharges under an ACRM, a report with the Utilities Division Director showing the Company's ending capital structure by month for the prior year.
4. Arizona-American shall modify the rate base calculation for the Havasu Water District to explicitly show a deduction for Arsenic Impact Fee collections.
5. That as part of the Earnings Test schedule filed in support of the ACRM, Arizona-American shall incorporate adjustments conforming to Decision No. 67093.
6. Arizona-American shall file the schedules discussed in its application, as modified by Staff's recommendations herein. Microsoft Excel or compatible electronic versions of the filings and all work papers should be filed concurrently with all ACRM filings.
7. Arizona-American shall file permanent rate applications for its Sun City West, Agua Fria, and Havasu districts by no later than April 30, 2008, based on a 2007 test year.
8. For the Havasu District, Arizona-American shall file with Docket Control by January 31st of each year, an annual calendar year status report, until the AIF Tariff is no longer in effect. The status report shall contain a list of all customers that have paid the AIF, the amount each customer has paid, the amount of money spent from the AIF, and a list of all facilities that have been installed with funds from the AIF Tariff.
9. Arizona-American shall file the schedules and information described above, as well as any additional relevant data requested by Staff, as part of any request for an Arsenic Cost Recovery Mechanism step increase.
10. The Commission is concerned about the impact on the bills of customers served by the Havasu system from the implementation of the ACRM. Consequently, we direct Staff and the Company to open a new proceeding to examine other forms of mitigation of the ACRM for the Havasu system, including the use of hook-up fees for adjacent systems.

Staff Analysis

ACRM Schedules

The Company has provided the following schedules that are in conformance with the methodologies required by Decision No. 66400 which was adopted by Decision No. 68310.

1. Balance Sheet – as of December 31, 2005
2. Income Statement – period ending December 31, 2005.
3. Income Statement Adjustments (Earnings Test) – to conform to Decision No. 67093.
4. Rate Review – a rate review filing for the Havasu Water District.
5. Arsenic Revenue Requirement – an arsenic revenue requirement calculation for Step One.

- 1 6. Surcharge Calculation – a detailed surcharge calculation.
- 2 7. Rate Base – a schedule showing the elements and the calculation of the rate base,
- 3 including the deduction for Arsenic Impact Fee Contributions as of April 1, 2006.
- 4 8. Construction Work In Progress (“CWIP”) Ledger – a ledger showing the construction
- 5 work in progress account.
- 6 9. 4-Factor Allocation for December 2005 – a schedule showing the allocation factors
- 7 for all of the Arizona-American Districts.
- 8 10. Typical Bill Analysis – ACRM Step-1 – A typical bill analysis showing the effects on
- 9 residential customers at various consumption levels as well as the Average
- Residential change at 10,140 gallons.

10 The ACRM schedules provide for the calculation of a surcharge based on financial records
11 and an Earnings Test Schedule that limit the ACRM surcharge to a rate that would not result in a
12 rate of return exceeding that authorized in Decision No. 67093. The calculated ACRM surcharge
13 would increase the average residential customer bill by \$12.48 from \$25.53 to \$38.01 (48.9
14 percent).

15 The rate design for the ACRM is composed of a 50/50 split of the recovery costs between
16 monthly minimum charges and commodity charges.

17 Staff has performed an inspection of the facilities and an audit and analysis on the
18 schedules provided by the Company and found that they conform to the methodology approved in
19 Decision No. 68310 as well as the various adjustments ordered to conform with Decision
20 No. 67093 with the exception that the debt and equity rates applied to the CWIP Ledger did not
21 conform with Decision No. 67093. Staff's adjustment to apply the correct rates reduced the
22 ACRM plant by \$26,968; the ACRM revenue requirement by \$3,782 from \$272,294 to \$268,512;
23 and the average monthly residential customer bill by \$0.18, from \$38.01 to \$37.83. Staff's
24 adjustment results in a monthly minimum surcharge of \$5.76 and commodity surcharge of \$0.6453
per 1,000 gallons.

25 Authorization of the Company's requested ACRM was conditioned upon on three other
26 items.

- 27 1. Arizona-American Water Company shall file a plan with Docket Control by
28 December 31, 2005 that describes how the Company expects to attain an maintain a
 capital structure (equity, long-term debt, and short-term debt) with equity

representing between 40 and 60 percent of total capital. This item was docketed on November 30, 2005.

2. For the Havasu District, Arizona-American Water Company shall file with Docket Control by January 31st of each year, an annual calendar year status report, until the AIF Tariff is no longer in effect. The status report shall contain a list of all customers that have paid the AIF, the amount each customer has paid, the amount of money spent from the AIF, and a list of all facilities tat have been installed with funds from the AIF Tariff. This item was docketed on February 2, 2006.

3. The Commission is concerned about the impact on the bills of customers served by the Havasu system from the implementation of the ACRM. Consequently, we direct Staff and the Company to open a new proceeding to examine other forms of mitigation of the ACRM for the Havasu system, including the use of hook-up fees for adjacent systems. Compliance with this condition is met by Docket No. W-01303A-05-0890.

* * * * *

Having considered the entire record herein and being fully advised in the premises, the Commission finds, concludes, and orders that:

FINDINGS OF FACT

1. Pursuant to Decision No. 68310, the Company seeks an arsenic cost removal mechanism surcharge tariff in this proceeding authorizing a monthly surcharge per customer to aid the Company in its efforts to comply with the Environmental Protection Agency's ("EPA") new arsenic maximum contaminant level of 10 particles per billion ("ppb") which went into effect on January 23, 2006.

2. Pursuant to Decision No. 68310, Arizona-American filed the required schedules prior to the implementation of the ACRM.

3. Staff's adjustments to the CWIP rates and all conforming adjustments should be adopted.

4. Pursuant to Decision No. 68310, Arizona-American shall file permanent rate applications for its Sun City West, Agua Fria, and Havasu districts by no later that April 30, 2008, based on a 2007 test year.
