Water Company;;

May 9 2006

This whole thing about the water problem is way out of line for the area.

Over the years McClain has gotten away with so much, how he could get away with all he did and taxes is beyond me.

I myself told him to get off my property, never asked for permission to check the water pressure, thought he had the

right to drive on my property at any time. Look you right in the eye and tell you a lie. He came on my property without

permission to check the pressure, asked him who he was, stated his name and said the water pressure was

good, he was telling a lie, I had just had it checked, and was low, I asked him to leave.

A lot of meetings were held in Phoenix, I myself could never attend, due to a member in family was very ill and could

not leave to go that far. I am on a fixed income, and can not afford to dig my own water well. Nine (\$9.00) dollars to a

lot of people isn't much but it is to me. He never made an adjustment when there was no water, and took our money with

no improvements, Now we are told we must pay this nine dollars, for what? Is there going to be better water pressure,

or pay his bills. No one is paying my bill. Is this the American way? It sounds like the McClain way.....

I could go on and on, this only makes me more up set. Dr. says I am not to get up set. I don't hold bad wishes on

people, but this is not a good move.

He has cheated the government, I am sure, and this whole area. This

is not a good move for the area, and the reputation the water systems has outside the area. This area as far as I see needs help not a 9.00 increase,

FOR WHAT////

Mary Foss
