Dear Commission Members,

I, Karen Hede, am extremely concerned about the
Citizen Electric proposal to increase our electric costs by 31% or more to recover
their losses. The amount proposed is most objectionable.

I strongly urge you to deny this rate increase.

Sincerely,

Karen A. Hede

Customer Service
Citizens Energy Services
2202 Stockton Hill Rd.
Kingman, AZ 86401

Something is not right about the way that Citizens is treating me as a customer. The steps that I took to assure that I would remain a customer "in good standing" have been changed, altered, or canceled by you without my permission or notification from you. I thought what I set up with Citizens would be good for both of us being that I live on a fixed monthly income.

At one point this year, I decided to maintain the initial deposit for my account with you, entered the "level payment" program, and submitted a form that authorized you to make a monthly automatic withdrawal from my savings account at a bank. Since joining the level payment program in January, I then decided to add a little extra money to my account to protect me against a shortfall this first year of level payment.

Is Citizens in the habit of doing whatever it wishes to a customer's deposit any old time it wants to? Once a customer sets up level payment, is the company in the habit of overriding his wishes any old time it wants to? Once a customer sets up automatic withdrawal from his bank account to pay on his monthly bill, is the company in the habit of deciding whether to withdraw or not any old time it wants to?

Is this your usual and customary display of competence when comes to handling a customer who wishes to remain in good standing with a utility company? I do not wish to be lulled into a false sense of security. I ask that you go forward with the offerings that I selected.

Thank you,

Kenneth E. Nyquist

RE: Docket No. e-01032C-00-0751

Dear Commission Members:

As small business owners, we are extremely distressed and concerned about the Citizen Electric Arizona's proposal to increase our electric costs by 31% to recover their losses. We have just been dealt a similar increase in our natural gas bills and it resulted in our charges being tripled. The effect on our community if that happen to electric charges would be devastating. If we could afford to keep the schools open for our children, we probably would have to cut staff and teachers. Health care costs have sky rocked to the point that unless you are critical, you do not enter the system. The "profit" facilities will obviously transfer the electric bill to the patient who can't afford the system now. And then, there is the small business community. We, like many others, cannot afford such a major increase. It may result in closure of business. What a fine way to stimulate the economy in a time of recession.

We strongly urge you to deny this 31% increase in charges. The business and home owners should not be penalized for decisions to purchase wholesale electric that resulted in company losses. Thank-you for your consideration in this matter.

RE: DOCKET #E-01032C-00-0751

DEAR COMMISSION MEMBERS,

I, Nancy Vicker, AM EXTREMELY CONCERNED ABOUT THE
CITIZEN'S ELECTRIC PROPOSAL TO INCREASE OUR ELECTRIC COST BY 31% OR MORE
TO RECOVER THEIR LOSSES. THE AMOUNT PROPOSED IS MOST OBJECTIONABLE.

I STRONGLY URGE YOU TO DENY THIS RATE INCREASE.

SINCERELY,

Nancy Vicker

Dear Commission Members,

I, Lee R. Shoblom, am extremely concerned about the Citizen Electric proposal to increase our electric costs by 31% or more to recover their losses. The amount proposed is most objectionable. This move will cripple Lake Havasu City in every age group. The residents of this town should not be punished for the financial mismanagement and lack of planning shown by Citizen's Utilities. Fixed income people will have their lives changed, negatively if they are allowed to be bailed out of their obligations and the responsibilities of a utility company.

I strongly urge you to deny this rate increase.
