Hello Mr. Mundell: This message is only going to you for what it's worth and is part of the ongoing Perkins Mountain Water Company/James Rhodes process. ⁰⁶

There is a heavy, persistent rumor circulating locally that Rhodes and the Kingman City Counsel are conspiring to bypass the Perkins Mountain Water Company incorporation entirely to avoid you and the "embarrassing" investigations involved.

The plan, as it is taking shape, is for the city of Kingman to pipe, plumb, and furnish ALL the water for the Rhodes Home projects surrounding Kingman. It is also a well known fact that the city of Kingman can't afford to do even a fraction of that because of severe money shortages, mismanagement, and a number of huge payoffs to last year's city administrators all now rapidly disappearing in embarrassing lawsuits, etc.

I thought at least you should know this in case it is of some value to your deliberations.

Thank you for your help, your time and attention.

Best,
Earl Kemp
