RE: The Links at Coyote Wash Utilities, LLC – Application for Extension of its Certificate of Convenience and Necessity (CC&N) Docket No. SW-04210A-06-0220  
INSUFFICIENCY LETTER

Dear Mr. Black:

In reference to the above mentioned application filed on April 4, 2006, this letter is to inform you that the application has not met the sufficiency requirements as outlined in the Arizona Administrative Code. The deficiencies are:

1. Please provide the requests for service for the SE1/4 of Section 11, SE1/4 of Section 12, NE1/4 of Section 14, all in Township 9 South, Range 19 West. The request for service provided with the application only references SW1/4 of Section 12, T9S, R19W.
2. The wastewater flow data information that was included in the application was for 2004. Please provide the most recent 12 month wastewater flow data. (A blank form is attached.)
3. Please provide a construction schedule that shows (1) when the Company will get its Section 208 plan modification approval, (2) when ADEQ will approve the APP modification, (3) when the company begins the proposed 0.235 MGD plant expansion construction, and (4) the completion date of the proposed 0.235 MGD plant expansion installation.
4. Please provide a copy of the Company's OSHA Safety Training Manual for the employees and operators of the proposed plant.
5. Please provide a copy of the itemized Engineering Cost for the Treatment Plant.
6. Please provide a copy of the Company's ADEQ Compliance Report.

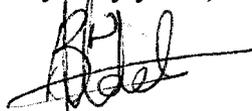

7. Please provide the Company's 2005 financial statements.
8. Please provide a copy of the Town of Wellton franchise agreement that includes the proposed extension area. If the proposed extension area is outside the Town limits, please provide a copy of the Yuma County franchise agreement that includes the proposed extension area. If the franchise agreement(s) has not been issued, please inform Staff of the status of the application for the franchise agreement.
9. The Tentative Water and Sewer Plans for Unit #3 and 4 in Exhibit 7 of the application depicts among other things, golf courses and lakes that are planed in the extension area. Does the Company plan to use effluent for artificial lakes, golf courses, ornamental structures, open spaces, and any other aesthetic water features? If so, at what point in time does the Company intend to utilize effluent for such uses? Please explain in detail. Please be sure to include the number of houses that would have to be built in order to generate enough effluent for such uses.

Staff would like to use this opportunity to bring the following to your attention:

- Pursuant to the Arizona Administrative Code ("A.A.C.") R-14-2-411(C), upon meeting sufficiency requirements, the Commission has 150 calendar days for its substantive review. This includes conducting a hearing and preparing Opinion and Order to present to the Commission at an Open Meeting; and
- Pursuant to A.A.C. R14-2-411(C)(3), Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.

**Please file your response to this Insufficiency Letter with Docket Control.** If you have any questions concerning this matter, please do not hesitate to contact me at 602-542-0840 and Dorothy Hains at 602-542-7274.

Very truly yours,

Blessing N. Chukwu  
Executive Consultant III
